TOMLINSON DNA COLLEC Case Number: 1975-00006192

Author SANCHEZ, LORIE

On 08-11-08 at approximately 1155 a.m. Sergeant Quimby requested my assistance as a Forensic Investigator to collect DNA samples via buccal swabs from a suspect in a cold case homicide.

Sergeant Quimby informed me he had all the materials needed for the collection and would be waiting with the suspect in the investigations interview room.

I met Sgt. Quimby, Cold Case

Investigator Phil Waters and the suspect

(DOB:) in the Investigations interview room. I advised Mr. ,
I was present to collect DNA from the inside of his cheek area using
buccal swabs. I talked Mr. through the process. I offered Mr.
the option of collecting the swab sample himself, which he accepted.

I asked Mr. to rinse out his mouth with water provided to him
via an unopened water bottle prior to collecting his DNA.

Oral (Buccal)
samples:

I collected the oral or buccal samples using four sterile swabs.
Two separate swabs were used for each side of the Donor's mouth. I removed
four swabs (one at a time) from their respective packages. Each swab was
protected by a plastic cap. I removed each swab from its protective cap. I
asked the donor to open his mouth and holding one swab at a time, the Donor
(Mr.) rubbed and rolled the swabs on the inside of his right cheek,
to collect the sample. The swabs were returned to their respective caps and
packaging. The packaging was labeled with the location of the sample.

I
changed my latex gloves between each sample collection and repeated the
collection on the left side of Donor's mouth. The packages were sealed with
evidence tape and initialed by me. The swabs were booked into evidence (LW1).

Upon review of this case file in 2009 I observed that the Sheriff's Department became actively involved in this GJPD investigation on or about June 1977. became the focus of the MCSO investigation. I contacted former Sheriff's Office investigators Riecke Claussen and Bob Silva who filed reports in this investigation. Neither could remember the specific reason for becoming a suspect. Both referred me to Milo Vig who was a co-investigator with them.

On this date I made telephone contact with Milo Vig. Milo told me they were asked to look into the case by GJPD Chief Ed Vandertook. The MCSO had just completed the Botham Investigation and The Chief wanted another look at the unsolved Tomlinson homicide.

Vig said he could not remember the specific reason was thought to be a suspect.

1975-00006192 LUDWIG 12-1 AUGUST 13, 2014

On July 22, 2014, I was assigned to conduct follow up investigation, in reference to a homicide, which occurred on December 27, 1975, at 1029 Belford Avenue # 6. My involvement in the investigation is outlined in the following treatise:

While reviewing the case file for this incident, I observed a report written documenting a phone conversation with Detective John East, of the police department in San Marcos, Texas. According to Detective East, their department had a homicide on November 24, 1975. On this date, the victim, identified as Sheryl Norris was sexually assaulted and strangled, in addition to being drowned in a bathtub.

On August 5, 2014, I spoke with Assistant Chief Penny Dunn, of the San Marcos Police Department, who stated that she had worked the Norris case as a cold case. According to Chief Dunn, in the year 2013 they arrested Willie Roy Jenkins (date of birth 7-30-53). They had linked Jenkins to the homicide through DNA evidence, and he was convicted, and is currently being house in the Texas Department of Correction (death row).

According to Dunn, Jenkins was in the military in 1975, and was stationed in California. He had taken emergency leave during the time of the Norris homicide, and had relocated to Texas. It is known that he did return to California after this period of leave was over, due to him being sentenced in California on February 27, 1976, for a sexual assault; however, it is unknown when he returned.

CASE STATUS: Investigation ongoing.

1975-00006192 LUDWIG 12-1 JULY 30, 2014

On July 22, 2014, I was assigned to conduct follow up investigation, in reference to a homicide, which occurred on December 27, 1975, at 1029 Belford Avenue # 6. My involvement in the investigation is outlined in the following treatise:

While reviewing the case file for this case, I observed a memorandum from Officer Larry Thompson, to Captain Vandertook, dated February 27, 1976. In the sixth paragraph of that memorandum, Officer Thompson states that a strong effort is being made to contact a subject from Utah, who is a professional snow skier, identified as . The officer obtained information that would travel from Salt Lake City on the weekends, and visit the victim, identified as Deborah Tomlinson.

Also in the case file, marked item I-194, was a report documenting the hypnosis of . She was reported to have observed this subject claiming to be on three occasions. Under hypnosis, on March 22, 1976, described the subject to a sketch artist, who in turn produced a composite sketch of the subject, which is located in the case file.

On July 29, 2014, I was able to contact via telephone, and speak with him about the case. He related to me that he may had been through Grand Junction, Colorado during that time, for a ski competition in Crested Butte; however, he was not familiar with the victim, Deborah Tomlinson. He further stated that he had never been contacted by any law enforcement concerning this case. After speaking with and his attorney, he agreed to meet with detectives for an interview. In addition, he agreed to provide a voluntary DNA buccal swab.

On August 2, 2014, myself and Detective Langevin relocated to Park Cities, Utah to conduct a recorded interview with . The following is a synopsis of that interview:

Upon meeting with and his attorney, I presented him with a photograph of Deborah Tomlinson. After viewing the photograph, stated that he had never met her. Again stated that he recalled being in Crested Butte, Colorado for a ski competition; however, he never dated a girl in Grand Junction. In addition, he stated that during the year 1975 he had a girlfriend who traveled with him, therefore he did not date many other women. He went on to state that he was very disturbed by the fact that somebody may have been impersonating him, and may had committed the homicide after using his name. According to he was in the year , and was very famous.

After concluding the interview, agreed to provide a DNA buccal swab, which was taken by Detective Langevin, and was subsequently placed into evidence.

For a complete and detailed account of the interview with , refer to the audio format, which I placed into evidence.

CASE STATUS: Investigation ongoing.

1975-00006192 LUDWIG 12-1 MAY 2, 2019

On December 27, 1975, officers with the Grand Junction Police Department responded to an apartment at 1029 Belford Avenue #6. The manager of the apartment complex, identified as Pamela Schnell-Burns had become concerned for the tenant in the apartment after numerous phone calls had gone unanswered. A bedroom window to the unit was left open and the toilet was running. The manager (Schnell-Burns) entered the apartment using a master key, and located the body of 19 year old Deborah Tomlinson. She (Tomlinson) was lying in the bathtub of the apartment, partially clothed. She had been bound at the hands, sexually assaulted, and strangled. A laceration on Tomlinson's forehead suggests she may have fought with her attacker. The manner of death was subsequently ruled a homicide, and the cause of death was strangulation.

The scene was photographed and numerous items of evidence were collected from the apartment in 1975. These items were placed into evidence at the Grand Junction Police Department. A blood and semen stain were collected from Tomlinson's bed, and these two items were sent to CBI for analysis. These items are listed in evidence as items 13A-1 (blood stain) and item 3-7S (semen stain). These two items were found to be from the same unknown male donor. This DNA profile was placed into CODIS, but yielded no matches. During the autopsy of Tomlinson a bandana, which her hands were bound with was removed. As the bandana was removed human hair was found inside the knot. These items were collected and placed into evidence as items 14.1 and 14.2.

In the year 1977 _____ became a suspect in this case. He was interviewed numerous times that year, and also took a polygraph test in 1977. _____ was the _____ of the victim Deborah Tomlinson. The two were close in age and were not biologically related. Investigators in 1977 believed that _____ and Deborah may have been sexually active over the years. During interviews with investigators in 1977 _____ gave conflicting statements, and made the statement that if the blood and hair found on scene matched his, then he guessed he killed her and just could not remember.

In the year 2008 _____ was again interviewed by investigators at the Grand Junction Police Department. During that interview he reluctantly consented to providing a DNA buccal swab to investigators. This swab was compared to the suspect DNA profile in the aforementioned items 13A-1 and 3-7S. It was found that _____ was not a match to the unknown male suspect DNA from these items. Throughout the interview he denied murdering Deborah Tomlinson, but was never confronted with the inconsistent statements he made to investigators in 1977. During the interview in 2008 _____ made a statement about remembering hearing rumors about Deborah Tomlinson dating a "city cop".

For a complete and detailed account of this case (75-00006192) refer to the complete case file, which has been scanned into LERMS.

On March 21, 2019, I requested that this case be re-opened for further investigation.

On March 25, 2019, a media release was conducted requesting anyone with information regarding this case contact the Grand Junction Police Department.

On March 26, 2019, I met with Doug Rushing at the Grand Junction Police Department reference this case. It should be noted that Rushing retired from the GJPD in the year 1977, and was involved in processing the victim's apartment on December 27, 1975. We discussed briefly the interview

gave to investigators in the year 1977, and according to Rushing he was not involved and was unaware of the statements made by . We reviewed some of the details about the crimes scene that told investigators, and Rushing stated that under no circumstances would he or any other investigators released that information to family members.

According to Rushing, he also informed me that he always felt that a former police officer should have been investigated as a person of interest in this case. He went on to say that in 1975

was working as a police officer with the GJPD, and that he lived in the apartment directly above Deborah Tomlinson when she was murdered. He also told me that a pair of men's aviator type sunglasses were found in the apartment, and they looked similar to glasses that frequently wore. I informed Rushing that I would investigate and find out what information I could on

On March 27, 2019, I spoke via telephone with phone number , who is the former wife of . She informed me that she had moved to Grand Junction in the year 1999, and was married to for seven years before they divorced. Additionally, she told me that had died in the year 2013. I asked her if she had ever heard about the murder of Deborah Tomlinson and she told me that had once mentioned that a girl was murdered in the same building he lived in, but did not provide any further details. I asked her if she knew of any children had so that I could contact them and discuss them providing a DNA sample, and she provided me with the name who is his biological daughter and is currently living in North Dakota.

On March 27, 2019, I received a phone call from a former GJPD officer, identified as James Miller, phone number . According to Miller he had seen a news story in Denver on the case being reopened. Miller told me that he worked for the GJPD for five years prior to going to work at the State Attorney General's Office. He went on to say that he was a new officer on December 27, 1975, and worked scene security at the murder. It told me that he did not have much involvement in the case, but just wanted to reach out to me. Towards the end of our conversation he asked me if I was aware that lived in the same building at the time of the murder. I asked if he remembers seeing that day and he told me he had not, and was fairly certain that he was not on duty that day.

On March 27, 2019, I spoke via telephone with Pamela Schnell-Burns. She was the manager of the property of 1029 Belford on December 27, 1975, and she is the person who found the body of Deborah Tomlinson. According to Schnell-Burns she had received a call from another tenant that afternoon about a screen being off a window in the back of Tomlinson's apartment. She used her master key to open the front door to yell inside, and got no response. She went on to say that she could hear something running in the bathroom, although she could not remember if it was a fan or water that she heard. She then went inside to check and found Tomlinson face down in the bath tub with her hands bound behind her back. According to Schnell-Burns she ran out of the apartment very quickly screaming, and does not remember many other details about the scene. She also stated that she never discussed any details about the crime scene with anyone in Tomlinson's family. Additionally she stated that she does remember living in the building, but was not sure if it was during the same time frame as the murder.

On March 29, 2019, I spoke with the of Deborah Tomlinson, identified as at his home in Fruita. I explained to him that the case was being reopened again, and briefly explained to

him what I was going to be doing as far as sending DNA samples to a genealogy lab in Virginia. I also briefly explained to him that due to some of the statements made by [redacted] through the course of this investigation he was still considered a suspect, even though he was not a DNA match to the suspect DNA in this case. [redacted] told me that he understood why he would still be considered a suspect; however, he does not believe [redacted] committed the murder, but he is open to any and all possibilities.

On April 2, 2019, I was able to locate and speak with [redacted] via telephone [redacted] (date of birth [redacted]), who is the biological daughter of [redacted]. I explained to her that her father's name had come to my attention as a person of interest in this case, due to him living in the same building as Deborah Tomlinson when she was murdered. She agreed to provide a DNA buccal swab for a familial comparison against the suspect DNA in this case.

On April 5, 2019, [redacted] relocated to the Fargo Police Department in North Dakota to provide the aforementioned buccal swab. I had previously spoken with the Investigations Sergeant at the Fargo Police Department, identified as Chris Nichtern to arrange this. This buccal swab was subsequently sent to me at the Grand Junction Police Department in an evidence sealed box. For a complete and detailed account of the actions taken by the Fargo Police Department refer to their case report, which has been affixed as part of the permanent case file.

On April 16, 2019, I received the DNA buccal swab from the Fargo Police Department, which was subsequently placed into evidence at the Grand Junction Police Department under item #BL-2232.

On April 18, 2019, item #BL-2232 was sent to the Colorado Bureau of Investigation (CBI) for a familial DNA analysis comparing it to the suspect DNA in this case (item #3-7S). To date the results of this analysis are pending, and will follow in the form of a supplemental report.

On May 1, 2019, I reviewed the personnel file of [redacted] at the City of Grand Junction Human Resources Department. I was able to confirm that he resided at 1029 Belford Avenue on December 27, 1975. In addition he lived in unit #14, which is directly across from Deborah Tomlinson's apartment. The unit is on the second floor, and looks down directly at the front door of Tomlinson's apartment.

I am currently in the process of preparing evidence items #1-1, which is the DNA profile of Deborah Tomlinson and item 3-7S, which is a sperm DNA sample from suspect to be sent to Parabon Labs in Virginia for a DNA analysis and genealogy search. To date the items are in evidence at the Grand Junction Police Department, but will be sent to Virginia when the necessary paperwork has been completed. The results of that analysis will follow in the form of a supplemental report.

On July 3, 2019, I spoke with Analyst Cynthia Kramer from the Colorado Bureau of Investigation reference the DNA bucal swab submitted by

The submitted DNA bucal swab was submitted by for a DNA familial comparison against the suspect DNA profile in this case. was excluded as having any familial relationship with the unknown male subject in the DNA profile. This excludes her father of being the unknown DNA profile in this case.

1975-00006192 LUDWIG 12-1 JANUARY 8, 2020

On December 27, 1975, officers with the Grand Junction Police Department responded to an apartment at 1029 Belford Avenue #6. The manager of the apartment complex, identified as Pamela Schnell-Burns had become concerned for the tenant in the apartment after numerous phone calls had gone unanswered. A bedroom window to the unit was left open and the toilet was running. The manager (Schnell-Burns) entered the apartment using a master key, and located the body of 19 year old Deborah Tomlinson. She (Tomlinson) was lying in the bathtub of the apartment, partially clothed. She had been bound at the hands, sexually assaulted, and strangled. A laceration on Tomlinson's forehead suggests she may have fought with her attacker. The manner of death was subsequently ruled a homicide, and the cause of death was strangulation.

The scene was photographed and numerous items of evidence were collected from the apartment in 1975. These items were placed into evidence at the Grand Junction Police Department. A blood and semen stain were collected from Tomlinson's bed, and these two items were sent to CBI for analysis. These items are listed in evidence as items 13A-1 (blood stain) and item 3-7S (semen stain). These two items were found to be from the same unknown male donor. This DNA profile was placed into CODIS, but yielded no matches.

I am currently in the process of preparing evidence items #1-1, which is the DNA profile of Deborah Tomlinson and item 3-7S, which is a sperm DNA sample from suspect to be sent to Parabon Labs in Virginia for a DNA analysis and genealogy search. After an analysis of the suspect DNA sample I was informed by Parabon Labs that they would need a sufficient victim DNA sample in order to extract her DNA from the suspect DNA, as the sample is mixed.

On January 8, 2020, the following evidence items were sent to Marshall University Forensic Science Center located in Huntington, West Virginia to conduct the victim DNA profile:

F-3 (Q-14)

DNA1
DNA 4
DNA6

If a sufficient DNA profile is developed for the victim in this case it will be forwarded to Parabon Labs for a genealogy search and analysis.

On April 28, 2021, I received a death certificate via USPS for Jimmy Dean Duncan, DOB:04-29-1949, from the vital records department located at the Mesa County Health Department.

I made a copy of the original death certificate and it was scanned into the case jacket by our Records Unit. I later booked the original death certificate into evidence under evidence item number SC2. This death certificate shows Jimmie Dean Duncan, SSN , died on December 24, 1987 in Denver Colorado due to combined drug toxicity.

1975-00006192 / 09-30-21 / Sgt. SL Crocker 04-6

On September 29, 2020, myself and Colorado Attorney General's Office Investigator Brandon Ludwig met with Mr. [REDACTED] at his residence in Montrose, Colorado. We explained to [REDACTED] we wanted to talk to him about [REDACTED] Jimmie Dean Duncan. He said that would be fine, so he stepped outside on his front porch and I took the following information. The following is a brief summary of that interview. Please see recording for full interview details.

Inv Ludwig asked [REDACTED] if the name of Debra Tomlinson meant anything to him. [REDACTED] told us he used to live in Grand Junction from 1969 to 1999 and worked for the Department of Social Services for 15 years. [REDACTED] said he met a lot of people and he thought the name sounded familiar, but he does not know how. Inv. Ludwig said Debra was murdered on Belford Avenue and evidence was collected. The evidence was analyzed and the DNA came back to him and his brother on their side of the family tree.

[REDACTED] told us he does not know about [REDACTED] actions back in the 70's and his details were going to be very sketchy. [REDACTED] told us he attended Mesa State College and he was living in Clifton during the time we are asking him about.

[REDACTED] told us there was one time when he heard a knock at the door of his house at about 9pm and out of the darkness walked Jim. [REDACTED] said he was dressed in all black and [REDACTED] said what are you doing here. [REDACTED] said Jim had a gun with him and told [REDACTED] he was headed to California. Jim said he would be in Grand Junction a day or two and [REDACTED] told Jim not to not do any jobs while he was in Grand Junction [REDACTED] knew Jim had been in lots of trouble and he had a long criminal history.

[REDACTED] said Jim spent one night at his house, sometime later [REDACTED] drove Jim to Thompson Springs, Utah and dropped him off [REDACTED] said he has not seen Jim since that day, he only heard he was paralyzed in a shoot out and then Jim moved to the San Luis Valley.

[REDACTED] said there was an incident he heard about when Jim was in Grand Junction about someone robbing a jewelry store downtown, but they did not get away with anything. [REDACTED] told us he thinks Jim was involved with the crime, but he did not ask him about it.

We explained to [REDACTED] how this investigation was worked over the years and how we ended up on his front doorstep. We also explained to [REDACTED] how he could help us close this cold case and get closure for Debra's family. [REDACTED] said he would be more than willing to help us out in any way he could.

During this interview, I asked [REDACTED] if he was involved in any way in the murder of Debra Tomlinson and he said no [REDACTED] said he is not a violent person and he is not involved in any way.

Later in the interview, [REDACTED] submitted to a DNA buccal swab, that swab was later analyzed and a DNA profile was developed. That DNA profile came back to Jimmie Dean Duncan and not

After looking at the newly generated DNA profile and comparing it to the genealogy results from Parabon, the Grand Junction Police Department felt confident that Jimmie Duncan was the person who killed Debra Tomlinson.

This case will be closed with death of offender.

He stated he found money in the master bedroom. He then found two rifles with ammunition and placed them in the front room with other stuff he had accumulated.

He denied ever raping the girl and stated that he didn't want to talk about it as that was his business.

There was a knock on the door and he then brought the girl up from downstairs and they answered the door together and there was a neighborhood boy there. He then took both subjects to the bedroom upstairs and tied them both up. He then took the guns along with the other stuff he accumulated outside and placed them under the hedge in the front yard.

He then commenced carrying the stuff to the V.W. He then went back in the house checking to see what the two tied up subjects were doing. That they made no sounds and didn't talk about a thing so he continued with his endeavors.

He stated that he tried to start the V.W. and at this time it was out of gas. He then went to the neighbors and borrowed a gallon of gas and then went up to Jacobs ladder and the next morning headed East through DeBeque canyon where he was later arrested.

Approximately one half hour later, [redacted] stated the doorbell rang; at this time, she was home alone. She then stated she thought it was a friend of hers by the name of [redacted] who had earlier had made an appointment with her, so she went upstairs and answered the door. She continued stating that when she opened the door, [redacted] pushed a rifle into her face and said, "Hi, can I come in?" [redacted] let him in and at that time he took her downstairs in the basement area which is redone into a living room/den area.

She then stated that while downstairs he picked up a cloth tape measure and tied her hands behind her back and at the same time he asked if there were any guns or money in the house. [redacted] then told him at this time she did not know. [redacted] continued stating that she believed he then told her to sit down and at this time also gagged her. He gagged her by sticking scraps of material from her mother's sewing machine into her mouth and took another piece of material and tied it around her mouth. She then stated she sat downstairs on the couch while [redacted] went upstairs and she could hear him rummaging around her parents room, closet area. Approximately five minutes later [redacted] stated [redacted] came back down stairs and untied her hands and removed the gag from her mouth. [redacted] also told her at this time to stand up and told her to take her clothes off. [redacted] stated she told him 'no' and [redacted] replied, "do you want me to kill you?" At this time, she said 'no' and proceeded to take her clothes off. At that time she was wearing cord slacks and a blouse, no shoes, but just had socks on.

[redacted] then stated [redacted] ordered her to lay down on her back on the floor of the basement room and told her to lift her legs up. She stated she did as she was told and he took his pants down

to his legs and lay down on top of her. [redacted] then proceeded to kiss her around the face and neck area at the same time feeling her with his hands around the vagina and breast area. [redacted] stated she tried to push his face away from her and recalled him mumbling quite a bit but could not make out what he was saying.

Approximately five to ten minutes later [redacted] then got off [redacted] pulled up his pants and told her to get up and get dressed.

Olivas then asked [redacted] if [redacted] made her do anything with him or if he ever turned her over and put her in any other position during this time. [redacted] stated he did not. Olivas then asked [redacted] if she felt [redacted] making any penetration into her and she stated she never felt any penetration. [redacted] who was listening, at this time stated [redacted] was later that evening taken to the hospital and as far as she could recall, there was no evidence found of any semen on or about her daughter.

[redacted] continued stating that after she got dressed, [redacted] tied her up again and took her back upstairs into the kitchen area, opening the refrigerator and asking if there was anything to eat. She replied she did not know. She then stated he took her back to her sister's room, looked in the room for awhile and asked about the cassette player he observed in this room. the exact sequence of events after the rape but continued stating she remembered being tied up and gagged once more back in the basement area and hearing the doorbell ring, went upstairs with [redacted] stood off to the side of the door. [redacted] at this time, was pointing the rifle at her once

again. [redacted] then answered the door by pushing the door open with her shoulder and her friend [redacted] was at the door.

[redacted] could not recall exactly what happened next but recalled when [redacted] saw [redacted] with the gun in his hand he started to run from the house but [redacted] ordered him back into the house. [redacted] then ordered them to [redacted] parents room and he tied [redacted] hands behind his back and also gagged him. With [redacted] he did not put any material into his mouth. He then ordered them to lay on their stomachs on the floor. While they were laying on the floor, [redacted] recalled [redacted] talking about having a contract out on her father. At this time, she did not understand what he meant. He also talked about having a souped up car, collecting the money he had found and putting it in his pockets at the same time. After the money was all collected [redacted] then left the room turning out the lights and [redacted] heard him in the kitchen by the telephone. It was later learned that [redacted] removed the speaker from the phone making it impossible for anyone to be heard from that end of the line.

Olivas then asked [redacted] if [redacted] made any attempt to hide the view from the outside while he was in the house. [redacted] advised she could ^{not} recall [redacted] pulling any shades or trying to hide in any way from the outside, although the basement windows are tinted yellow making it impossible for any one to look in. Olivas then asked [redacted] if [redacted] swore at any time or appeared angry with

August 1975, he made another sale and was paid on the 13th of August, 1975.

Officer Olivas then asked her if he had a mode of transportation and she replied that when he first started working for them he did not have a car but a cousin of his was taking him around in his pickup. She also did not believe that [redacted] had a vehicle when he made his first sale on the 19th of July 1975.

[redacted] continued stating that [redacted] uncle [redacted] had signed for him for the purpose of buying him a car and she had heard [redacted] had made a trip to Grand Junction, meaning after he left, in the latter part of August and his vehicle broke down on the way to Grand Junction.

She later talked with the representatives in Grand Junction of the Kirby Company and they told her he did not have a vehicle when he arrived in Grand Junction in the first part of September or the latter part of August.

[redacted] also added [redacted] was a poor employee, always arguing and bragging about the things he could do and could not do. [redacted] stated she did know [redacted] and his family and they were a very good family but did not think very much of nephew. [redacted] also added there was no sales slip which would indicate [redacted] could have been in Grand Junction in July.

The interview was then terminated and [redacted] thanked for her information.

I asked [redacted] if she had ever seen [redacted] anywhere other than [redacted] trailer. She stated no, he always came to the trailer and they never really went anywhere together. She said sometimes they would go out and buy some booze and maybe ride around for awhile and then go back to the trailer and get drunk.

[redacted] was asked if she knew of any other friends [redacted] might have in town. She stated she got the impression [redacted] lived alone. He never did talk about a roommate and spent most of his time with [redacted] at the trailer. When asked about the evening of December 27th when [redacted] came to the trailer, [redacted] related he had come out fairly early in the evening. She could not recall exactly what time it might have been, but that it was approximately 6:30 or 7:00 o'clock. She said when [redacted] arrived he asked [redacted] did you know Debi Tomlinson just got murdered. [redacted] said no and [redacted] said he thought it was strange that she had been murdered because he had just seen her. He said she had been strangled and was in the tub.

[redacted] could not recall the exact conversation but stated [redacted] must have said something which caused [redacted] to think he did not believe him as [redacted] stated, "watch the news in a couple of days if you don't believe me. I just came from the apartments and the cops are all over the place". [redacted] could not remember much more of the conversation and she could not be sure of the time when [redacted] left [redacted] trailer but said he did stay long enough to drink a beer and she thought it must have been about two hours before the news came on TV which indicated the time [redacted] left the trailer was approximately eight p.m.

PERSON INTERVIEWED:

On 04/14/76, [redacted] came to the police department to view a group of photographs which constituted a photo lineup of suspects in the Tomlinson case. One of the photographs included in the lineup was that of [redacted] who allegedly knows [redacted] and was allegedly having a beer at the [redacted] residence at the time Tomlinson homicide was discovered by [redacted].

[redacted] viewed all of the photographs three times and stated that four out of five of the photographs he had viewed looked like local people he had seen around town but he did not know any of them personally. He said he did not recognize any of them as having been at the homicide scene and that definitely none of them had been to his home on the evening the homicide was discovered. I had a conversation with a [redacted] who claimed to have gone with Mr. and Mrs. [redacted] to get a pizza and a beer at approximately seven p.m. on the evening of 12/27/75. Mr. [redacted] stated that he and his wife and [redacted] along with a [redacted] had gone to get a pizza but it was much later in the evening than that, roughly around eleven p.m. He said there was quite a lot of excitement around the apartment complex that night and that [redacted] may have been upset enough not to realize what time it had been when they went to get the pizza, but that in his own mind there was too much activity at seven p.m. and too many questions were being asked by officers at that time for them to possibly have gone to get the pizza.

Tomlinson homicide and he advised [redacted] did not talk to him about that.

[redacted] described [redacted] as having wavy, bushy red hair and being short. He also stated that as far as he knew [redacted] did not have a girlfriend and that in fact he was sure he didn't, but then he stated that he meant she dated a lot of girls.

[redacted] also believed that at the time of the Tomlinson homicide that [redacted] was working part time for a lawyer here in Grand Junction in the abstract work. He never heard [redacted] talk about girls in a bad way and felt [redacted] was a typical guy in his twenties who liked girls and had the same feelings as any other twenty year old. As far as he knew, [redacted] did not have any sex hangups.

Olivas asked [redacted] if he ever saw [redacted] in an irate mood and he replied he did see him once mad at the railroad yard master because the yard master had yelled obscenities at him and [redacted] replied he did not have to take that and threatened to go home for the day. [redacted] stated that as far as he knew, [redacted] did have a controlled anger and he wasn't the violent type.

During the discussion, [redacted] advised [redacted] who also works for the railroad mentioned to [redacted] that [redacted] told him he was in the apartment complex the night of the homicide at some type of party. [redacted] also mentioned that [redacted] dated Deborah Tomlinson and they just figured she was just

one of several girls that [redacted] dated. [redacted] was asked what type of vehicle [redacted] was driving during the Christmas holidays and he stated [redacted] had a red and white sporty type vehicle, possibly a Chevy and that he also drove his father's pickup truck.

[redacted] could not advise whether [redacted] ever mentioned having sex with Tomlinson or Benson when he dated them although during that discussion in January he did state that [redacted] discussed the fact Debi decided not to give this guy something, meaning sex, and he possibly got mad and killed her.

They discussed the possibilities of an instrument being used in the killings and [redacted] stated something was mentioned about a club or baseball bat but he did not know who mentioned it and thought he possibly might have read something about it in the paper about her being beat on the head by a club. He does not know for sure though. Again, it was just pure speculation. Olivas asked [redacted] if it was possible [redacted] might have made up anything about Deborah Tomlinson and Linda Benson and he stated it could be possible because everytime during the discussions that names were mentioned, [redacted] would always say he knew them or knew about them because he went to school with them. Olivas asked if he and [redacted] discussed any other cases outside of the state of Colorado and [redacted] stated they didn't discuss any murder cases in particular but that [redacted] had mentioned he had gone to listen to court cases back in Texas involving murders.

Interview was then terminated with [redacted] and he was asked if he could remember any other things he might have discussed with [redacted] about these murders to contact the Grand Junction Police Department. [redacted] agreed and advised he would do so.

Dear Ron:

On 4-1-76 I made contact with [redacted]

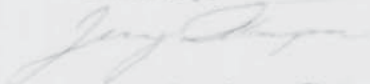

[redacted] in Salt Lake City, Utah. He states that he left the Grand Junction area on the 23rd of January, 1976, and that he was familiar with [redacted], and [redacted] left the Grand Junction area the first part of January of 1976, he is not sure exactly when. He states that he just received a letter from [redacted] on the 15th of March and his return address was St. Mary's University Law School, Charles Francis Hall, Box 16, San Antonio, Texas, 78284. He states [redacted] came over to his apartment the night of your murder, he is not sure what day that was, but it was the night you found the girl in the apartment. As near as he can recall, [redacted] told him that he was sitting having a beer with the manager of that apartment complex, name unknown, and that the manager's wife came out or they heard her scream. He stated that the manager supposedly then grabbed a gun, ran over to the apartment, and stated that they had found a dead girl. He states he does not know if [redacted] went in the room with the manager or not, he is not sure. He states that [redacted] did not tell him anything about how the girl was killed, where she was, or anything about her. The first that he knew anything about how this was is when he read it in the paper. He stated [redacted] told him that the place was completely roped off and no one was allowed to get anywhere and there were a lot of police around there and that this was real interesting to him as he is studying law. He stated, "I'll bet the DA will get a lot of clues because it looks like they're going through garbage cans and everything there is." [redacted] states he never knew the girl and to his knowledge he doesn't believe that [redacted] knew her either but he is not sure, he never did talk about it. He states he is positive that [redacted] never did tell him anything about if the girl had been raped, as it came out in the paper two or three days later and that she had been found nude. He stated the first he knew about that was when he read it in the paper or heard it on the news.

DECEMBER 28, 1975

DEBORAH KATHLEEN TOMLINSON, date of birth June 11, 1956, was found in her apartment at 1029 Belford Avenue by apartment complex manager Pam Schnell shortly before 6:00 P.M., December 27, 1975. Mrs. Schnell entered the apartment with a pass key after an attempt to get a response from Miss Tomlinson failed.

The reason for the concern about Miss Tomlinson was the result of an observation by another apartment occupant who saw the bedroom screen open and out of its track.

After opening the apartment, Mrs. Schnell entered and found the body in the bathroom. Miss Tomlinson was face down in the bathtub, partially disrobed and with her hands bound.

The body was taken to Montrose for an autopsy which was performed by the Mesa County Coroner and Dr. Tom Canfield. Cause of death was ruled to be strangulation. Miss Tomlinson had been sexually molested.

A 19-year-old Mesa College coed was slain Saturday in her small Grand Junction apartment.

The woman, Deborah "Debi" Kathleen Tomlinson, of Belford Apartments at 1029 Belford, was discovered bound and dead in her bathtub after an apartment manager entered the dwelling shortly before 6 p.m.

When police arrived shortly afterwards they immediately sealed off part of the 20-unit building and a parking lot.

The apartment, No. 6, is located at the south end of the building with living room and bedroom windows facing a rear parking area. The door of the ground level residence faces west, opening into a covered hallway directly across from a stairway leading into a basement laundry room.

Police would not disclose how the partially clothed woman was killed pending the outcome of an autopsy to be performed by Mesa County Coroner William Doell and Dr. Thomas Canfield, a Montrose forensic pathologist.

Capt. Ed Vandertook said as of late Saturday night that no murder weapon has been found. Two large metal trash bins were taken by a city truck upon police request from a parking area east of the Tomlinson apartment.

Officers will go through the bins piece by piece in hopes of finding some clues. The containers are being stored for "safekeeping" at the city shops, Vandertook said.

Mrs. Pam Schnell, apartment manager and daughter-in-law of George Schnell who owns the complex, discovered Miss Tomlinson's body.

The slain woman's father, Jimmie Tomlinson, of Fruita, last heard from the woman at 2 p.m. in a telephone conversation. Tomlinson, who was informed of his daughter's death by The Sentinel at 7:40 p.m., said there was no indication in that conversation of any trouble the woman was having.

The woman returned to her apartment Friday after spending Christmas with her family on 8 Road, he said.

Miss Tomlinson moved into the apartment in November and lived on her own

while attending Mesa College. According to school sources the woman was majoring in physical education and was serving on the Student Body Association as the sophomore class representative.

A fellow classmate, Dalton Tanonaka, lives in a ground floor apartment down a second hallway parallel to Miss Tomlinson's. He told a newsman he was waking up from a nap about 5:30 p.m. when he heard a man and woman having a "heated" discussion outside his apartment. The living room and bedroom windows of Tanonaka's apartment face an inner court around which two levels of apartments are situated. When he looked out to see what was going on the people were gone.

According to Mesa College President John Tomlinson, who is not related to the slain woman, Miss Tomlinson came to his attention when he began work this fall because his own daughter is named Debi.

Miss Tomlinson visited the Tomlinson home Wednesday to bring the family a box of candy for the Christmas holidays.

"As far as I was concerned she was a very fine person — we just liked her a whole lot," the college president said.

"I don't get a chance to know many students very well. This is most distressing," he added.

Saturday night Mrs. Schnell told a group of onlookers at the Belford apartment complex that she found Miss Tomlinson in the bathtub after she noticed the bedroom window open and heard the toilet running.

She said repeated calls into the apartment proved futile so she used a pass key to enter the locked apartment and went into the bathroom. At that point Mrs. Schnell ran out screaming and summoned police.

At one point Mrs. Schnell told an officer the woman had been bound. Capt.

Ed VanderTook verified the fact, but would not comment with what the woman was bound.

VanderTook said the department would proceed with the murder investigation by interviewing neighbors of the woman, following any possible leads and conducting a crime scene search in daylight to make sure "nothing is overlooked." He said six or seven officers would be assigned to the case.

One man who will be interviewed by police was arrested about 7:45 p.m. by the State Patrol in Plateau Canyon. Richard W. Clifton, 31, of Hesperia, Ca-

lif., was charged with driving under the influence of alcohol after his vehicle was found off the side of Colo. 65.

The man is being held on the charge in the Mesa County jail and was brought to police attention when the arresting State Patrol officer noticed scratch marks on the man's face.

The inside of the woman's living room appeared neat and tidy Saturday night indicating no sign of struggle in that room. It was decorated with numerous plants, posters of contemporary philosophy. An artist's easel holding a picture of the mountains stood in the corner.

A bedroom window which faced a parking lot was open, leading bystan-

ders to speculate — without police confirmation — that an intruder may have entered through the window.

The scene was similar to another 11 blocks away on N. 21st St. where the bodies of Linda Benson, 24, and her daughter Kelley, 5, were found stabbed to death July 25.

In those murders the front door of the apartment was locked when Mrs. Benson's husband, Steve, returned from working out of town. He entered their second floor apartment through a balcony door that was unlocked and discovered the bodies.

Miss Tomlinson is survived by a brother, Tim and a sister in addition to her parents. She was born June 11, 1956.

Woman becomes 17th Mesa murder victim

The killing Saturday of Mesa County coed Debbie Tomlinson, 19, of 1029 Bel-ford, is the sixth murder case in Mesa County in 1975. She also became the 17th victim. Here is a chronological listing of the others:

Jan. 25 - Issac Carl Carmickle, 55, of 3047 Road F, died at his home when he was shot in the face by his son, Virgil Leon Carmickle, 30. In April, the younger Carmickle was found innocent of the murder by reason of insanity and was committed to the Colorado State Mental Hospital at Pueblo.

June 6 - In what the Mesa County sheriff's office declared a "murder-suicide," Linda Lee Clark, 24, shot and killed her four-year-old son, Miles, and shot and killed herself in the family's Whitewater home. The woman also shot in the head her eight-month-old baby, Knolly, but the infant survived.

July 25 - Linda Benson, 24, and her five-year-old daughter, Kelley, were found stabbed to death in their apartment at 1300 N. 21st by Steve Benson, the dead woman's husband. No arrests have ever been made in these murders

and the Grand Junction police department is still investigating the case.

Aug. 23 - On this date Patricia Botham, 25, of 1914 Ouray, Linda Miracle, of 1925 Ouray, and Mrs. Miracle's two boys, Troy, 5, and Chad, 3, were reported missing by their relatives. About a month later, the bodies of all four were found in a Mesa County portion of the Gunnison River. All the bodies had been weighted down with railroad ties. The two young boys were shot in the head, but law enforcement officials have not revealed the cause of the deaths of the

two women. In early November, Kenneth H. Botham, Jr., 27, Patricia's husband, was arrested and charged with four counts of first-degree murder in the case.

Nov. 21 - In another case termed a murder-suicide by the sheriff's office, Donald Lee Sparks, 21, shot and killed his father, Harlin, 49, and his mother, Eva, 49, while they slept in their home at 2107 Zion. The younger Sparks called the police to report the shootings and then shot and killed himself.

No suspects

Police continue probe in death of college coed

By SUZANNE SINCLAIR
Sentinel Staff Writer

Police said today there are no suspects in the strangulation murder of Deborah Kathleen Tomlinson, 19, who was found in her Grand Junction apartment Saturday night.

A 31-year-old California man interviewed by police Saturday night at the Mesa County jail has been cleared of any involvement in the case, a police spokesman said.

Richard W. Clifton was picked up by the State Patrol in Plateau Canyon and charged with driving under the influence of alcohol about 7:45 p.m. over an hour after the woman's body was discovered by a landlord.

Fresh scratch marks on the man's face led police to speculate he may have been involved, but Capt. Ed VanderTook said today Clifton is "not a suspect" and received the scratches in a fight at a location police verified.

An autopsy performed in Montrose Sunday disclosed that Miss Tomlinson was strangled and sexually molested at her 1029 Belford Ave. apartment. VanderTook said he would "assume hands" were the weapon used to kill her.

But a small gash on the woman's forehead have led police to search for another weapon. VanderTook would not comment on whether an examination of two trash bins taken from a parking area east of the building had turned up anything.

The woman's partially clad body was found face down in a bathtub with her hands bound behind her back by Mrs. Pam Schnell, an apartment manager.

VanderTook would not say what the woman was bound with, hoping the information will be useful in interviewing potential suspects.

He also would not say if police believed someone broke into the apartment or if the murderer was let in. VanderTook said further laboratory tests may deter-

mine if sexual intercourse that had taken place was an act of rape.

A bedroom window and screen facing a parking lot on the south end of the building had been swung open to the outside leading Mrs. Schnell and a neighbor to speculate that a burglary had taken place. After repeated calls into the apartment about 6 p.m. went unanswered, Mrs. Schnell opened the locked door with a pass key and discovered the woman's body — a bathroom light was the only fixture on in the apartment.

VanderTook said an investigation headed by Sgt. Fred Albrecht and Lt. Robert Evers would concentrate on interviewing a number of local people known by the woman and friends and classmates at Mesa College who are beginning to return to town for the next academic session.

VanderTook is acting police chief, filling in for Chief Ben Meyers who is on vacation for the Christmas holidays. Meyers was due in town today.

Miss Tomlinson was a sophomore at the college and class representative to the Student Body Association. She was majoring in physical education.

She was last seen at 3 p.m. Saturday by a neighbor in the 20-unit apartment building who stopped briefly to visit with her, VanderTook said. The woman was alone at the time.

Her father, Jimmy D. Tomlinson, a rancher in Mack, had spoken with her by telephone at 2 p.m. The woman returned to the small apartment Friday after spending Christmas with her family. Miss Tomlinson lived alone.

The autopsy was performed at Montrose Memorial Hospital by Dr. Thomas Canfield, forensic pathologist, and Dr. William Doell, Mesa County coroner.

Police returned to the apartment today to complete crime scene tests and gather evidence — a process that began as soon as police arrived Saturday.

Unsolved homicides 'different

as night and day'

By **DON FREDERICK**
Sentinel Staff Writer

The Saturday slaying of a Mesa College coed and the mid-summer murders of a 24-year-old local woman and her young daughter are "as different as night and day," according to one investigator for the Grand Junction police department.

Though the officer was speaking in terms of the evidence surrounding the killings, his phrase also could be applied to what the police hope will be the contrast in the progress of the two cases.

Police Chief Ben Meyers said earlier this week that he did not believe there was a connection between the weekend strangulation death of Deborah Tomlinson, 19, and the late-July stabbings of Linda Benson and her daughter, Kelley, 5.

And in reviewing the Tomlinson murder, Meyers said he has "a lot more confidence that we'll break this case than I did with the Benson case." One big help, he said, was the large amount of "physical evidence" investigators have gathered at the coed's apartment.

About five months ago, however, police were expressing the same type of optimism about solving the Benson murders. At that time, they likewise felt they had enough "physical evidence" to launch a successful investigation.

But of the Benson case, Meyers said this week, "It's really a cold trail. There's no question about it."

And it doesn't appear activity in the Benson case will soon heat up. Partly as a result of the dead ends the police have encountered and partly because the Tomlinson case now has the higher priority, no officer is assigned fulltime to in-

vestigating the Benson murders.

Of course, Sgt. Fred Albrecht, who had headed the Benson investigation, says any new development in the case would gain immediate attention. He's still hoping for the "one piece that's going to make the whole puzzle."

But lately, the department hasn't had much to play with. Meyers says that over the last month "leads" in the case have been "far and few between."

He also revealed that as long ago as August, the Federal Bureau of Investigation evaluated the chances of finding the Benson murderer as "not

good."

The FBI comments came after the agency was asked to prepare a "profile" of the likely characteristics of the Benson murderer. Meyers added that FBI agents complimented the local police for preparing "one of the finest investigations that they have seen in a couple of years."

That opinion, however, is not shared by a person who has followed the case closely — Steve Benson, 27, who discovered the bodies of his wife and child on the night of July 25.

(Continued to page 20)

Junction police pursue different theories in unsolved homicides

(Continued from page 1)

Benson calls the efforts of the police to solve the murders "a third-class investigation." As one example, he cites the failure of the police to fingerprint a vacant house near his apartment where, he believes, the killer may have "holed up."

However, Albrecht says that vacant house was looked at by police and found to be "locked tighter than a drum."

Another of Benson's major dissatisfactions is that the police have relied on their own men to pursue the investigation, rather than calling in agents from the Colorado Bureau of Investigation and the local District Attorney's Office.

He notes that the sheriff's office asked for this type of help in the recent murders of Patricia Botham, Linda Miracle and Mrs. Miracle's two children, for which Mrs. Botham's husband has been arrested and charged.

Meyers says, however, that the sheriff's office suffers from less "manpower" than his own department and so needed this outside help. He notes that up to 14 officers have been assigned to the Benson case and over the last five months almost 3,000 "Man hours" have been expended trying to solve the case.

The police also have interviewed about 200 persons about the murder but, Meyers says, "all have been elimi-

nated" as possible suspects.

But in his own review of the case, Meyers has formed a theory about the murders. He believes a "peeping Tom" entered the Benson apartment "for a closer look." At that point, Meyers theorizes, Linda Benson either awoke or stirred in her sleep and the killer "went into a frenzy."

He adds, "I'm inclined to believe the guy is not in the area anymore."

Steve Benson also holds the belief that the killer of his wife and daughter were not premeditated. He noted that \$1,000 worth of guns in the apartment were left untouched, but a bag of apricots his wife picked before her death were missing.

But because of his dissatisfaction with the police, he is pursuing his own investigation and he says, "There are people right here in this town that are still not clear, in my mind."

Meyers says, "I can certainly understand Steve Benson's feelings." The chief adds, "Nothing is going to please him until we bring the murderer in by the nape of the neck."

And Meyers says generally of the investigation into the Benson killings, "Personally, I think it was handled right," particularly since at the time "very few people in this department had ever seen a murder."

That is a situation, he notes, that has drastically changed over the last five months.

unidentified man

Police attempt to find '4 Jan 76

Police investigators aren't taking any chances in following-up leads as the probe continues into the strangulation murder of Deborah Tomlinson, 19, in her Grand Junction apartment Dec. 27.

Monday afternoon a bulletin was issued through the State Patrol to locate an unidentified young man who was seen at another Grand Junction apartment around the same time knocking on a woman's door.

According to Lt. Ron Smith, the man is wanted for questioning in connection with the murder. Police would like to determine why the man was knocking at the door of a stranger.

It is not known whether there is any connection with the Tomlinson murder and Smith admitted there has been "nothing productive" in leads on the case so far.

He said a "large number" of people associated with the woman have been interviewed and police will continue to concentrate on this method of gleaning possible leads.

"We're working on it everyday," Smith said.

Some eight men are assigned to the case — all but two full-time.

"It's a slow process," Smith added.

He indicated that the "attempt to locate" bulletin did not represent a solid lead in the case, but was something that would be checked out.

The man is described as in his 20's or early 30's, 5'5-5'8 inches tall, about 130 pounds on a small build, dark hair, long and wavy cut above the ears, possibly wearing a black waist length zip-up jacket and dark rimmed glasses.

Miss Tomlinson, a Mesa College sophomore, was killed sometime during the latter part of the afternoon Dec. 27. She had been sexually molested and was found by a landlady in the bathtub of the apartment when she failed to answer repeated calls into the apartment at 1029 Belford about 6 p.m.

The landlady suspected something was wrong when a tenant informed her Miss Tomlinson's bedroom window and screen were pushed open.

Miss Tomlinson's death became the third unsolved homicide within the city in 1975.

Richard W. Clifton was picked up by the State Patrol in Plateau Canyon and charged with driving under the influence of alcohol about 7:45 p.m. over an hour after the woman's body was discovered by a landlord.

Fresh scratch marks on the man's face led police to speculate he may have been involved, but Capt. Ed VanderTook said today Clifton is "not a suspect" and received the scratches in a fight at a location police verified.

An autopsy performed in Montrose Sunday disclosed that Miss Tomlinson was strangled and sexually molested at her 1029 Belford Ave. apartment. VanderTook said he would "assume hands" were the weapon used to kill her.

But a small gash on the woman's forehead have led police to search for another weapon. VanderTook would not comment on whether an examination of two trash bins taken from a parking area east of the building had turned up anything.

The woman's partially clad body was found face down in a bathtub with her hands bound behind her back by Mrs. Pam Schnell, an apartment manager.

VanderTook would not say what the woman was bound with, hoping the information will be useful in interviewing potential suspects.

He also would not say if police believed someone broke into the apartment or if the murderer was let in. VanderTook said further laboratory tests may deter-

mine if sexual intercourse that had taken place was an act of rape.

A bedroom window and screen facing a parking lot on the south end of the building had been swung open to the outside leading Mrs. Schnell and a neighbor to speculate that a burglary had taken place. After repeated calls into the apartment about 6 p.m. went unanswered, Mrs. Schnell opened the locked door with a pass key and discovered the woman's body — a bathroom light was the only fixture on in the apartment.

VanderTook said an investigation headed by Sgt. Fred Albrecht and Lt. Robert Evers would concentrate on interviewing a number of local people known by the woman and friends and classmates at Mesa College who are beginning to return to town for the next academic session.

VanderTook is acting police chief, filling in for Chief Ben Meyers who is on vacation for the Christmas holidays. Meyers was due in town today.

Miss Tomlinson was a sophomore at the college and class representative to the Student Body Association. She was majoring in physical education.

She was last seen at 3 p.m. Saturday by a neighbor in the 20-unit apartment building who stopped briefly to visit with her, VanderTook said. The woman was alone at the time.

Her father, Jimmy D. Tomlinson, a rancher in Mack, had spoken with her by telephone at 2 p.m. The woman returned to the small apartment Friday after spending Christmas with her family. Miss Tomlinson lived alone.

The autopsy was performed at Montrose Memorial Hospital by Dr. Thomas Canfield, forensic pathologist, and Dr. William Doell, Mesa County coroner.

Police returned to the apartment today to complete crime scene tests and gather evidence — a process that began as soon as police arrived Saturday.

No new leads or suspects in murder case

There are no new leads or suspects as the investigation continues into the strangulation death of Deborah Kathleen Tomlinson, 19, a police source said today.

Capt. Ed VanderTook discounted a rumor that the department has asked for the aid of the Colorado Bureau of Investigation.

"We are using their laboratory facilities, but as far as personnel assisting - there are none at this time," VanderTook said.

The partially clothed woman was found strangled and bound with her hands behind her back face down in a bathtub early Saturday night at her Grand Junction apartment, 1029 Belford Ave. She had been sexually molested.

Sheriff Dick Williams said today investigators from his department have gone over the case and will provide any needed assistance to police. There are no deputies, however, assigned full time to the homicide.

It is expected that Miss Tomlinson's body will be released soon for burial from Montrose Memorial Hospital where the autopsy was performed Sunday.

The woman was last seen at 3 p.m. Saturday by a neighbor and her body was discovered about 6 p.m. by a landlord who checked on the woman after a bedroom window and screen on the apartment had been thrown open.

Callahan-Edfast Mortuary will provide funeral arrangements.

Reporting Officer asked each of these subjects if they had touched anything in the crime scene area. None were specifically sure. One did state that they were, however, as far as they knew the only three subjects who had entered the crime scene area before the police.

Pam Schnell originally stated the tenant's in apartment #2 of 1029 Belford noticed the window with the screen open (or tampered with). They called Pamela Schnell. She in turn notified the Police Department of this. Pam Schnell, and left the Schnell residence at 1036 Belford, walked across the street to the window area. They examined the window. Pam Schnell stated at that time the curtain was caught in between the screen and was on the outside of the screen area. She pulled the screen away, and hollered, "Debi, are you there?" There was no response according to Pam Schnell. Pam Schnell is, again, the manager of the apartment complex. She took the master key and opened the front door, located on the west side of the location of this crime scene. ~~There is only one door into the apartment. She entered the doorway, heard a "flushing" sound (it was later discovered it was the toilet flushing at that time).~~ She walked into the bathroom area and saw the leg of the victim. At approximately 1753 hours this Officer was dispatched to 1029 Belford Avenue, apartment #6, to investigate a possible burglary to that apartment. I arrived on the scene at approximately 1756 hours, pulling into the east parking lot and parking immediately to the furthest north space nearest Belford Avenue. I approached apartment #6 on foot toward the east facing bedroom window of the apartment which was located on the southeast corner of the building toward the rear. I did observe that the window was standing wide open; it had been slit toward the north and a screen was extending or protruding out toward the parking area, still attached partially to the frame in the upper left corner.

Upon looking into the window I did observe Officers Stan Lumbardy, ID #420, and David Schumacher, ID #439, walking in the apartment. I was looking into the bedroom of the apartment at the time. Officer Schumacher approached the bedroom from a west doorway and turned northbound into a bathroom. Officer Lumbardy followed him. At that point I walked south and west around the rear of the apartment and entered the apartment, at which time I was contacted by Officer Schumacher and Officer Lumbardy in the bedroom and was told there was a female victim in the bathroom of the apartment. I did observe the victim lying face

The bathroom light was on at this time. I followed the other two officers out of the apartment. Time in the apartment was approximately 15 seconds. At this point Officer Lombardy was posted at the door entrance of the apartment. Myself and Officer Schumacher kept observers from the area and began making contact with individuals who were standing in the area.

Individuals contacted were the apartment manager, Pam Schnell, 1036 Belford Avenue.

Apartment 18 of that apartment complex
apartment 2, within that complex

No other spectators were observed at that time in the area. We were informed that had observed the open window and screen extending from the window upon parking his vehicle on the rear south east corner of the building when he returned home at approximately 5:50 P.M. after picking up his wife after work at Montgomery Wards Department Store.

stated that his wife, went to their apartment and telephoned the manager, Pam Schnell, who came from her residence on the north side of Belford across the street to the apartment complex. She had with her a master key and entered the apartment and observed the female victim who was the tenant of apartment #6 Debi in the bathroom.

She stated she left the apartment and went back home, contacting ~~who~~ the second then returned with her to the victim's apartment. She stated that she had talked to ~~residen~~ time she had gone toward the apartment where her husband was, at time she had observed of #18, who accompanied her to the apartment at this point. The police were contacted by Pam Schnell.

Sgt. Robert Cross, ID #309, arrived at the scene, taking charge of the investigation at this point and assigning officers to specific duties. The area was roped off. My assignment was continue interviewing any observers in the area, and to contact tenants in the building at 1029 Belford Avenue.

On 12/27/75 went to apartment, #16, and she got there at about 4:00 p.m. and noticed the curtains in Deborah's apartment were closed and thought it was strange because Deborah always left the curtains open, even at night. She left after being there approximately five minutes...the time being 4:05 p.m. and checked to see if Debbie's car was there because she was going to stop and see her. The vehicle was there and then she decided she wouldn't go see Deborah and decided she had better get over to the Pizza Hut to meet her brother because she had a Christmas present for him. She didn't notice an open window or curtain hanging out the window while she was looking at the car.

 stated she had no idea if Deborah was conscientious about locking her door even when she was home. said that Deborah never did lock her door when she stayed in the dorm at Mesa College.

 said she wouldn't have any idea who would have killed Deborah because she hadn't seen her for a couple of months and had no idea who she was running around with.

was very helpful and agreeable, assuring me he and the staff at Mesa College would do anything possible to help with our investigation.

He stated the last time he had seen Debi Tomlinson was on Wednesday, December 24, 1975. She had called him at his home at approximately 10:00 A.M. and she and had come to his home at around 2:30 P.M. with a box of candy from Enstrom's Candy Company. The two of them visited for approximately an hour before leaving. Debi had talked about her new apartment and seemed to be in a very happy mood.

I asked if Debi and were going together. He stated he did not get that feeling, but that it was pleasant to him to see them together because they were both very nice, outgoing people and they just seemed to fit together. He got the feeling they had somehow gotten together just for that day and that the two of them had decided to do something nice for he and his wife. He

was a little surprised and a little pleased to see the two young people together, but got no indication that the two would be going any place else together.

His reason for knowing _____ was that he is a student at Mesa College as well as an employee at KSTR radio and that he has had several opportunities in the past to talk with _____ professionally.

He got acquainted with Debi through seeing her once a week in connection with her activities in student government and now and then on campus. _____ has a daughter named _____ who is approximately four years older than the deceased. These things helped them to become friends and seemed to like this due to the lack of actual contact with the majority of the student body.

who is a student at Mesa College, stated she had met approximately three (3) months ago. She met him through a friend named "Sweet" on at the time. had no classes with but did see him a few times on campus. On these occasions she formed the opinion that was a real nice guy, but he had a way of being rude to people that was difficult to explain. He never actually cut people down, but seemed to have a better-than-thou attitude and was inconsiderate of peoples' feelings at times.

She said that on Saturday, December 27, 1975, she and had been downtown and were going by Mesa College campus when they saw painting a sign for the Mesa Players. They stopped to talk to him for a while and were invited to go to apartment for a while.

At his apartment, they talked for a while and looked at a photo album in which had placed pictures of the Mesa Players and various other photos. invited to come to her home at around 8:00 o'clock that evening as she was having some friends over to play cards and he accepted.

DATE OF INTERVIEW: 12-27-75 TIME OF INTERVIEW: 1825 hours LOCATION OF INTERVIEW: apartment #5			
PERSON INTERVIEWED:			
stated that he is an exchange student from Honolulu, Hawaii at Mesa College. He stated that his roommate, who is presently in Denver, Colorado, and an exchange student from Bankok lived in the apartment #5. stated he had been in the apartment since approximately 3:30 P.M. this date. He had been sleeping and woke at approximately 5:45 P.M. when he heard voices in the hallway to the east of his apartment. His apartment centered at the rear lower level, and his bedroom is at the north east corner of the apartment, which is the west wall of the hallway that runs north and south and allows entrance from the rear alley to the courtyard of the apartment. He stated that the voices sounded like those of a man and a woman. He could not distinguish what was being said, but something along the lines of parking a vehicle. He stated that he is good friends with the victim who lived in apartment #6; that he often checked on her to make sure everything was okay with her; that he worked with her at college and that they did work on the college paper on occasion together. He stated that she was active college government, and the intermural program. He stated he first met her last year in January at the college.			

He did not know of her social life other than previous to her moving into her present accommodations at 1029 Belford she had been living with four (4) males in a house somewhere on Country Club Road. He thought that one of the males was who was a quarterback for the Mesa College football team. He stated he had not seen Tomlinson much lately. The last time he saw her and had a chance to speak with her was last week sometime - either Thursday or Friday.

stated approximately 1 o'clock this date he did leave his apartment, going to the rear of the complex into the parking lot where entered his vehicle - a brown Chevrolet station wagon - and attempting to start the vehicle when he did notice another vehicle enter the parking lot, parking to the left rear side of a white over red Mercury which belongs to one of the tenants. He observed a white-greyish haired, husky built male, approximately 5'10" to 5'12" in the 50's, and wearing a long tan coat and accompanied by a female, very young, possibly in her teens, approximately 5'2" to 5'4" tall, fairly skinny and with reddish shoulder length hair. These two individuals approached the door at apartment #6 and knocked for quite some length of time. He stated they were still knocking as he left the area. He got the impression that Debi, occupant of apartment #6, was not at home. He stated that when he returned to the apartment around 3:00 P.M. nothing appeared unusual in the area. He parked his vehicle, went inside and, as previously stated, went to bed at approximately 3:30 P.M.

stated that he knew of no boy friends Debi had, and had no other close contacts who often came to visit her whom he knew of.

at approximately 5:40 P.M., 15 to 20 minutes later. He stated it is possible that it could have been that way when he left, but that he did not recall it. He said his attention was toward the trash container further south of the building which did contain some milk cartons; and he couldn't understand why somebody would throw away the milk crates (wire-type crates used to carry milk cartons in). He stated they do have some value. He stated that he spent most of the day in his apartment the football games, and did not hear anything unusual.

The apartment is along the west side of the apartment complex and some distance from apartment 6. stated that last summer he did catch a young male looking through his bedroom window which faces west. this Officer contacted the above named.

Apartment #16 is located directly above the victim's apartment. These two (2) subjects are employed at the Pizza Hut.

Both subjects stated that at approximately 2:25 the victim came to their apartment. She talked to them briefly. She asked them how they had been, and invited them to come down to her apartment for a beer sometime. She stayed only a few minutes. She specifically stated that she had to leave; that she was expecting a visitor soon.

Victim was contacted again at approximately 3 P.M. by who was doing laundry and who had gone downstairs and borrowed money from the victim. She then went to the basement of the apartment complex and put money in the washing machine. This was the last time saw the victim alive.

stated that she was taking out the garbage, that she walked down from apartment 16, down the stairway, past the victim's apartment just after 3 o'clock (approximately 3:05). She stated David Schumacher/cjl

that victim's curtains were open at that time. She stated she saw the victim reading a book in a chair. This was observed through the living room window located on the south side of the victim's apartment.

All curtains were open at this time. At that time the victim appeared relaxed, and it appeared that she was alone. This was the last time saw the victim alive.

At approximately 3:30 to 4 P.M. was laying her bedroom. She stated she could hear the stereo playing in the victim's apartment. In fact, she remembers hearing the group "The Eagles" playing. The stereo was not excessively loud, however she is sure that she did hear the stereo playing. She also stated that living upstairs (above victim) she could hear just about anything anytime the stereo was on or any movement - these two girls could hear any activity in apartment #6. However, neither subject stated they heard any excessive noise indicating any real struggle. There was never any noise of things breaking or other noise to indicate that a fight was taking place.

At approximately 4:30 both girls were preparing for work and walked outside the apartment, went downstairs, started her vehicle - which was parked in the field just south of the apartment complex. She stated that as she walked by she did not hear a thing. Approximately at 4:35 her roommate, for whom she was waiting, walked outside also to pick up the laundry in the basement. was

in her car, the engine running and reading a book, waiting for Meantime went downstairs to the laundry room. While walking upstairs, she the door of the victim's apartment open. The door opened only a few inches. This subject stated that she did not see any face or anything near the door, just that it appeared that somebody was near the door watching her. There were no fingers exposed or anything else on the door. Whoever opened the door at that time, did so using only the door knob. The door then stopped, almost in a startling fashion. It did not open anymore. She did not hear it close - did not think anything of this. She walked up to their apartment, put the keys away and the two (2) girls then left the apartment for work at the Pizza Hut at approximately 4:40 P.M. The arrived at the Pizza Hut at

stated that it seemed as though whoever was behind that door seemed to be waiting for the two (2) girls to leave. It is this Officer's opinion that at this time the suspect was in the victim's apartment and that the suspect was attempting to leave the location, that the suspect was cautious, opened the door, heard footsteps, peered outside and waited for and to leave, at which time when the coast was clear suspect probably (in this Officer's opinion) exited the apartment by this door. Neither girl, again, heard anything out of the ordinary. This was very unusual because they heard the stereo in victim's room play so many times before and voices before, that if somebody would enter the apartment they would know the victim would have company. But this afternoon there was nothing. When the two did finally leave and pass by the door, both were sure that the stereo was not playing. It could be heard from where they were standing, but they did not hear a thing. Both subject's stated earlier in the day they observed two people knocking on the victim's door. There was one female and one male subject. The female was approximately 25 years of age, red hair to her shoulders. She was wearing a white uniform, such as a nurse or a beautician. There was a man with this subject, approximately in his 50's, wore glasses, graying hair, 5'9", medium build. These two subjects left the area at approximately 1 o'clock.		
and	further stated the only male subjects they ever saw victim with was on Christmas

They also saw victim enter a black Volkswagen. They stated they believed the victim had one male friend who possibly lived at 1049 Belford, brown hair, wore glasses.

The girls further stated - this may bear follow up - the victim had a close girl friend, address somewhere on Orchard Avenue. She drives a red Volkswagen.

The girls stated that two friends visited them at the approximate time of this crime,

Pam Schnell stated that a friend of their's, who lives in #10 in the apartments to the east, had told her about a fellow who had bumped into her at approximately 5 P.M. and asking for the manager's office and needing a room. She directed him. stated that he had come over to their house and talked to them about a room. told him they did not have anything at this time. Pam Schnell stated that she saw him leave and then run very fast, south through the apartment complex. She said the man was 30 to 40 years old, dark hair, maybe balding. She said he had mentioned about having children in a vehicle, possibly this is where he was running to-to get back to his children. The vehicle may have been parked in the south area of the complex.

stated he was one of the first people to move into the apartment complex when it was new. He has been there since about September 1, 1974.

He first met Debi Tomlinson in November of 1975. She had come to the telephone company office to make application for a telephone to be installed in her apartment. She was referred to who took her order at his desk.

said Debi sat down at his desk and began talking to him as if she were well acquainted with him and seemed very forward. He noticed the address on her application was close to his and became interested in her. He said that over the following weeks Debi was in his apartment possibly eight (8) or nine (9) times and he had been to her's twice. He said that when they first began their relationship, Debi had told him she got her high school education in Europe, had spent time in Paris and Vienna, and did speak some foreign languages. She told him she was independently wealthy owning three houses of her own and that her father had inherited a huge ranch in Utah.

_____ said the story sounded more like a dream than a reality so he wanted to check it out, to see if it were really true. He called Pam Schnell and asked if she knew anything about Debi. Pam told him all she knew was that she paid her rent on time.

_____ also told of Debi telling him about living with six (6) or eight (8) guys in a house on Country Club Park which she owned. She had said that the only reason for her having the apartment was to have a place to go to get away from people. She said she was only going to college for kicks and seemed uncertain how long that would last.

_____ said he had been in Debi's apartment the first time because she had invited him over more or less to compare apartments and to show him some of her personal belongings. The second time he was there it was just long enough for Debi to get a couple of steaks out of her freezer and leave.

_____ said that a short time after he met Debi and before he called Pam Schnell to ask about her, he had had some people over to his apartment for a little party and Debi was present. He said they sat around talking for awhile and when the other guests left, Debi stayed. He said they sat on the sofa, watching TV and kind of necking. As time went by things got a little warmer between them and they ended up going to bed together in his apartment. They had sexual intercourse and he fell asleep shortly after. When he awoke, Debi was gone.

_____ He said that type of relationship did not continue between them even though Debi did continue to come to his apartment from time to time. They just remained friends, but never had sex together again.

_____ said the last time he saw Debi was in the apartment parking lot as he was leaving to go on vacation. This was on December 19, 1975. On that day he drove to Colorado Springs where he stayed until December 24, 1975. He returned to Glenwood Springs and was there until December 29, 1975 at which time he returned to Grand Junction for one day. He stated that on December 27, 1975 he was at the

PERSON INTERVIEWED:

At the outset of the interview this Officer informed in depth than others he might have had with investigating officers. was asked when he first met Debi Tomlinson. He stated he could not remember positively, but his first contact was either during the fall or winter quarter of the last school year at which time he and Debi were in a volleyball class together. He stated he had met her through _____ was one of the first people he met when he first arrived at Mesa College and she had become a very good friend to him in that he could ask her for a favor and she would make a sincere effort to help him if at all possible. developed between he and Debi, and it became a mutual understanding that either of the girls could ask him a favor and he would do what he could to help and vise verse. He stated his relationship with Debi was not one of closeness in the sense that they were attracted to each other physically. In fact, he stated he did not really know Debi that well personally and insinuated he knew very little about her life outside of the College campus.

He did, at the request of accompany and Debi on a trip to Phoenix, Arizona.

According to the purpose of the trip was just to go down and enjoy the sun and see another part of the United States he had never seen. He said the first night of the trip was spent at parent's house in Denver. The trip from Denver to Phoenix was made the following day. said the girls were planning to visit some of the baseball players, so he took a bus from Phoenix to Tucson, where he visited a friend, He returned the following day and the return trip from Denver to Grand Junction was made with the girls.

said he had not at any time had sexual intercourse with Debi Tomlinson, and that their relationship was strictly one of friendship. He said that he and Debi were really not in the same social circles and that he did not talk to her that much, even though they became neighbors. He said she had used the phone in his apartment a couple of times when she first moved into her apartment, and he had been in her apartment one time after she had invited him in to see it. He said Debi was rarely home and even when she was he could not hear any sound from her apartment due to the way they were arranged.

was again asked about his activities on 12-27-75 and he related the same thing he had told before with respect to having two visitors from about 1500 hours to 1520 or 1530 hours. After they left he went to his bedroom and slept from approximately 1600 to 1730 or 1800 hours.

was told this officer had read a police report concerning several attempts to sexually assault her and I was attempting to locate the man responsible. I asked her to relate to me as much as she could possibly remember about him.

said that in June of 1973 she was in Durango, Colorado, and working for the Chamber of Commerce there. At that time she received an invitation to go kayaking with a group of people. The trip was to be made down the Colorado river from Loma to a point just before reaching West Water Canyon. On her arrival in Grand Junction she followed some people to a house just outside of town where the kayaks to be used for the trip were stored. She said she thought the person who lived there made them and she

thought the man who made them was the father of one of the guys who made the trip with her.

She could not remember where the house was located nor could she remember the name of the person who furnished the kayaks. I asked _____ who she made the trip to Grand Junction with. She said she could not remember the names of any of the people who made the trip. She explained that at the time, she was young and impulsive and the trip sounded like a fun thing to do. She simply stated she did it and went back home and forgot about it.

I asked _____ if there were any people who's names she could remember that had been involved in the trip or with the planning of the trip. _____ seemed to become indignant at this point and stated none of the people who had made the trip were in this part of the country and she could not recall any of their names.

_____ said the river trip consisted of two days and one night on the river and that on that trip she had met the man named _____ whom she had referred to when she reported the attempted assault to officers earlier. She described _____ as being 5' 6", heavy muscular build, blond wavy hair, blue eyes and stated he had a baby face and did not appear masculine. She stated, at that time in '73, _____ was in the bars in Durango and she assumed that at that time he was at least twenty one years of age. At present she assumed he would be approximately age twenty-four.

_____ said that on the river trip _____ seemed to be a very nice person and commented he was the type of person she would go for had he not turned out to be so "squirrelly". While in Durango, she got the

stated he first met Debi Tomlinson near the end of July at Hartman's Air Strip near Loma, Colorado was teaching a student named to fly He said he knew that did not like Debi very well and at one time Debi had told him she thought the reason was that didn't think girls belonged in the flying scene							
Near mid-August Debi caught at the airport and personally asked him to teach her to fly							
He told her she would have to find a plane to use before he could give her any instruction They had gone to Sambo's for a glass of iced tea and had talked for about an hour Debi had told she had been up in a plane a few time with but when suggested she try to use plane she backed off and wouldn't say much When he asked her what was wrong, she told him about having gone with becoming pregnant, going to California and loosing or having the baby aborted She also told him about parents' being against their getting married said he was a little surprised that she

would tell him all these things, but after having heard the story he understood there were hard feelings between she and the family and that was the reason she became upset when he mentioned trying to use their plane

On one other occasion Debi and met at the airport and then went to Howard Johnson's for a glass of tea This conversation was strictly business and explained to Debi about the preliminary training she would have to complete before she would be able to go up for actual flight instruction This seemed to "cool" her down a little and from that time on his only contact with Debi was via telephone She called his home a few times to see if he knew anyone she could contact about borrowing a plane

said he had never been to Debi's apartment, and he spent the entire day of 12-27-75 with his family He said his wife could probably verify his story and to feel free to contact her if I felt it necessary He also said he would take a polygraph examination and give hair samples and prints if it would help in our investigation

Before leaving the Police Station made a statement concerning his personal feelings the day he heard about Debi's death He said that due to the feeling he got when Debi was talking about her relationship with his first reaction was to think that had to be involved

reason to think that she would have ever caused them any trouble

At this point I told there would be no need to continue our conversation and that any questions I might have would be cleared up on the polygraph He agreed to return to the Police Station on 01-27-76 at 1630 hours and the interview was concluded

Kamen states a preliminary laboratory analysis of the blood stain found on the bed in the Tomlinson case shows the blood to be definitely "O" type. There was an insufficient sample to determine the Rh factor. The EAP enzyme tests are inconclusive at this point but show the blood to have enzymes of either "A" or "AC". If the enzyme is "A", 7.23% of caucasians have this enzyme; 10.2% negroes have this enzyme. If the enzyme is "AC", 1.21% caucasians have this type enzyme; 2.9% negroes have this enzyme.			
Further enzyme tests will be attempted on the remaining sample taken from the bedspread. Kamen also states that testing on the seminal stain taken from the bedspread is being conducted and that no analysis has been made at this time.

stated he was not well acquainted with any of the students and that due to his age and background he did not have many friends there.

I asked if he had known or ever heard of Debi Tomlinson. appeared to be in deep concentration for a moment and then stated he guessed he did not know her. I asked if he had read or heard anything about a college girl being killed in her apartment near the end of December.

Again seemed to be in deep concentration then suddenly he smiled and stated, yes he had heard about her and wanted to know if that was her name. I told that was correct and asked again if he had known Debi Tomlinson or had seen her or heard of her while attending Mesa College.

stated he had not known her but did remember reading about her in the paper after her death. I

asked if he had talk with anyone about Tomlinson's death since the incident had occurred.

could not remember talking with anyone about the incident but thought possibly his mother had mentioned it at the time it was on the news and in the newspapers.

At this time I left the residence telling I might wish to contact him in the future and asked him if he would have any objections to my returning. stated he had no objections and remarked it had been nice talking with me. This ended the interview with however, I would like to include in this report an officer's opinion.

This officer's opinion of is that is very childish and appears to be a basically timid person however like many small children cannot find the inner strength to blame himself when he is responsible when things do not turn out right. does not appear to be a

violent person and it is also this officer's opinion he would not mentally capable of committing the crime and leaving the scene as it was found by officers. END OF REPORT

during that year and that when he would see her alone there he talked with her about school activities and things she might want to do in the future but never anything personal.

I asked if he had ever dated Debi and he stated he had not, and that most all of their conversation had been strictly casual. I asked if he had ever been to Debi's apartment. He stated he had not, and said he only knew that Debi had moved away from her parents home and that she seemed to be very happy about her independence. I asked his whereabouts on the 27th of December. stated he had gone home for the holiday's to visit his parents in California and he had not heard of Debi's death until his return the following day. He said he came in on a plane and was picked up at the airport by his coach, and that he remembered telling him about the incident on their way back into town from the airport.

At this point in the interview, I told I had no other questions concerning Tomlinson but that I had heard some rumors concerning his behavior which I wanted to talk with him about. I told him these rumors were to the effect he had, had sexual intercourse with some of the college girls against their will. I also made it plain at this time that if there were any truth to the rumors that this department would do a complete investigation and if it was learned that he had in fact sexually assaulted any girl against their will, he would be prosecuted on that charge.

said he also had heard the rumors around the college and he could not figure out why anyone would tell these stories about him unless he had some enemies he was not aware of. I impressed upon that if these rumors were false, he had nothing to worry about; however, on the other hand, if they were true he definitely would be prosecuted and I would be contacting him again.

He stated that anytime he could not be located at the college to call the phone number he had given me earlier and attempt to locate him at his residence. He stated he would be more than willing to assist us with information concerning the Tomlinson case and to talk with us further about the rumors we had heard if need be.

At this time, Detective Olivas showed

a picture which had been among Debi Tomlinson's.

personal-affects-and asked if he could recognize the person in the picture. stated he did recognize him as a young man who played on the Mesa College football team but could not recall his name. He excused himself and went to one of the game rooms in the Student Center and returned shortly with a young man who was also on the football team. The man looked at the picture and stated yes he recognized that man as who was currently attending Mesa College and had played on the college football team.

was pheasant hunting but he could not be sure. He state, however, that on that day at approximately

17-10 hours, he SAW-DEBORAH TOMLINSON'S VEHICLE coming from the west on North Avenue and turning south

by Kentucky Fried Chicken. Olivas then asked how he knew it was Debi's car and he described it as

a Mustang, brown in color and having body work on the rear quarter panel and all around the sides.

He stated the body work was brown in color and had been puttied over and smoothed over to the shape of the car. He stated he knew this because he had seen it at the body shop before and had seen

Debi driving the car on occasions.

On this particular occasion, 12/27/75, he stated that when he saw this vehicle turn south, it turned in front of him as he was proceeding east to his residence on North Avenue, 2335 Hall. He stated he was approximately forty feet from the car when it turned in front of him and he observed a male, person driving that vehicle. He stated the male had dark hair and was wearing a red shirt or jacket sitting pretty well up in the driver's seat. was asked again if he was positive this was the

date and the time he saw the vehicle and he advised he was positively sure this was the car and the time. The reason he stated the time was because he was listening to the KEXO radio station on his radio and that the news comes on, on the hour at that time and it was approximately 10 to 15 minutes after the news that he saw this vehicle...possibly 5:15 or 5:10. Olivas then, in the presence of _____ called his mother at her place of employment and talked with her about _____ relating the incident to her. _____ stated her son arrived home right around five o'clock..she couldn't be sure of the exact time...on the 27th of December 1975. At the outset of the interview I asked how long he had known Debi Tomlinson. He stated that a little over two years ago he used to run around with a guy by the name of who was going with a girl from Fruita named He said that knew Debi and through he had met Debi somewhere, possibly at a party, but he could not remember just exactly how he had gotten to know her. He stated he had never dated Debi but had gone to her home in Mack one time and had spent approximately two hours there talking with Debi and her mother. He said that after becoming acquainted with Tomlinson he would run across her in different places in town and stop and talk with her from time to time. At one time, approximately one year to fourteen months ago, he was living at

with a friend named

At that time, he and

eggs from the Tomlinson's and sometimes they would go to Mack to pick them up. Other times, Debi would drop them by the apartment and stay and talk awhile.

He said that on one occasion he was home alone at the apartment and Debi had come by to visit. She had been drinking and after being there for sometime, one thing led to another and eventually he and Debi had gone to bed together. He said she completely undressed when they got into bed and he fully expected her to spend the night. However, the following morning when he woke up she had gone. He had no idea when she had left his apartment and he said that after that the relationship seemed to fall off to nothing. However, he did see her from time to time driving around Grand Junction and if they ever stopped in the same place, they always said "hi" but there was not much more to the relationship other than hello and goodbye.

He said he thought the last time he did talk with Debi would have been approximately the middle of November when she had told him she was living in the Belford apartments and had asked him to drop by and see her sometime. He said he never went by and did not see her after that or hear anything about her until the Sunday after she was killed when he came back from skiing at Powderhorn on Grand Mesa and read about her death in the paper. I asked if he could recall his activities on the Saturday before he had gone skiing or on the day Debi was killed. said he could not recall exactly his activities for that day but that he could check his work records at the Daily Sentinel and attempt to determine from those records what his activities had been for December 27, 1975. He said

I arrived at [redacted] residence at approximately 1030 hours. 02/12/76, I explained to [redacted] that I would like to conduct a more indepth interview than perhaps they had previously encountered when talking with other officers. I told them I had a few specific questions to ask but would rather have them recall and relate to me incidents which occurred throughout their lives with Debi.

At the outset of the interview [redacted] were asked if Debi were [redacted] natural child. They answered that [redacted] was Debi's natural mother but that [redacted] had adopted Debi when she was approximately 1 1/2 years old. Debi's natural father is a [redacted] To the best of their knowledge, [redacted] lives in Grand Junction and by his own choosing has had no contact with Debi throughout her life. Debi was told of this, and from all indications, she understood completely and

accepted the relationship with no problem. There is a [redacted] living in the Fruita area who is Debi's grandfather. [redacted] referred affectionately to him as [redacted] and said they and Debi had always liked and gotten along well with him. They could not think of anytime there would have been any bad feelings toward Debi from any of the [redacted] family unless Debi had been in contact with her father since she moved away from home. If she had been in contact with him, they were not aware of it.

During the time Debi was growing up, [redacted] spent their summers on a ranch in Utah, returning to Mack, Colorado in the fall so Debi could attend school in Fruita. Her entire education was obtained in Fruita schools and she had the same basic group of friends until she graduated from high school. [redacted] could not think of any serious incidents in Debi's life, until she became emotionally involved with [redacted] When asked about the story of Debi being pregnant and having lost the baby in a car accident in California, [redacted] stated he was sure Debi had not been pregnant. He said that Debi had told a lot of people she was, but that she had been taking birth control pills and that her mother usually knew when Debi had her period. He said that on 02/12/75, Debi had talked to [redacted] and that the two of them were supposed to come to [redacted] home at 5:00 p.m. to discuss getting married. Neither of them showed up and at approximately 12:30 a.m. [redacted] called the [redacted] residence. He was upset and got pretty rough with [redacted] on the phone. [redacted] told him he and Debi had called off their marriage plans and he thought she had gone home.

The following day, [redacted] drove to Grand Junction and checked around the college for Debi. When he was unable to locate her, he turned in a missing person's report to the Mesa County Sheriff's Office.

BACKGROUND continued....

He said they had not heard from Debi and were about to climb the walls when she finally returned home five days later. She told her parents she had gone to home in Van Nuys, California. On her return trip she was involved in an auto accident in New Mexico and had spent the night with a preacher and his wife. She told her parents she had lost the baby due to the accident but that she was o.k. as she had gone to a local clinic near where she spent the night and had been checked by a doctor there. said, he hated to say it, but he thought Debi had done the whole thing just to be able to fabricate a story which would cover up her story of being pregnant.

In reference to a letter received by the Sheriff's Office from a man in New Mexico, I asked if he could recall having a cowboy work for him approximately three years ago, who was in his fifties and who wore a black hat and shirt when he was in town. said that had to be a man named had worked for him in 1969, 1970 and 1971 and that he was kind of a funny old man. He said he had heard the same stories I had heard about with respect to some of the women in town being afraid of him. He said he didn't know what they based their fears on but that was different and he remembered the old fellow liked to look at Penthouse and Playboy magazines. He said is still living and working in the Fruita area and has heard is writing a book based on the activities of Butch Cassidy and his gang while they were in this country.

he didn't know why, but the man seemed creepy to him. With reference to

Debi had a mare she had bred by a stallion owned by the and was doing this work for them to

pay the stud fee. said that Debi got along well with and seemed to like her very

much but when Debi knew that was going to be home before his wife she would always leave

early as she did not want to be around when they were alone. She never told her mother he made

advances but got the feeling Debi did not trust him.

I asked if I could see Debi's savings account book and her checkbook along with any

other records which might reflect how much money Debi had at a given time and where that money was

spent. turned these records over to me and stated some of the money reflected in the

savings account book was money which Debi had received from the sale of stock which she owned.

later when these calves were sold the money was put into a savings account for Debi.

said that while Debi worked for the some of the money she earned was paid to her in cash.

European trips Debi had made while in high school. [redacted] said there were two trips made. One the summer of 1973 and another the summer of 1974. The trips were made with students from all over the U. S. but he thought most of them came from the Western states. The trips were made for college credits which Debi was to receive after two full years of attending college.

At this point in the conversation, [redacted] recalled an incident which took place while Debi was a senior in high school. Debi had been taking an art course at night at Mesa College. One night after the class, Debi came home very much afraid. She was so certain someone was following her that she stopped at [redacted] residence, which was located at a trailer park in Fruita. She reportedly ran from the car into the [redacted] home without knocking and stayed until she calmed down enough to go home. [redacted] said he told her if it happened again to go to the police station, but as far as he knew, there were no further incidents.

I asked [redacted] if they had thought of any persons which should be interviewed by investigators for any reason at all. [redacted] said she had wondered who the person was that installed the telephone for the kids at Country Club Park and for Debi at the Belford apartment. She said both installations were made for no charge and she didn't think Debi had paid a deposit when the first phone was installed. She also mentioned the guy at the lake who was giving Debi a bad time. She said

they argued a lot about government and politics and whoever they guy was, he got smart with Debi a few times, saying he didn't know why she bothered to come out there and work when she didn't need to. As far as he was concerned, she and her folks had enough money that she shouldn't have to work. When the arguing was mentioned, [redacted] remarked that Debi would not take any "bullshit" from anyone and usually said what she thought without backing down. [redacted] said she recalled the time when Debi had to leave a ballgame in Grand Junction to go home and let a repairman in to fix the garbage disposal. She said she didn't think it was [redacted] because he would have had a master key. [redacted] didn't know who the man was or who he worked for. Both [redacted] said there were a lot of people Debi knew that they were not aware of. They said she had brought many of her friends to their home and introduced them but they knew there were several they had not met. There was some mention made of a [redacted] who is now attending the University of Utah. [redacted] said there was said he might know something about Debi's friends and her activities. [redacted] an arab, attending Mesa College that Debi was acquainted with. Debi had brought him to their home once and introduced him but later told [redacted] he must not have made a very good impression as [redacted] had later commented he knew Debi's father did not like dark complected people. [redacted] said she got the impression from talking with Debi that [redacted] was constantly after Debi. In fact, she used the terminology, he kept terrorizing her, asking her to go to Las Vegas with him and home to meet his parents. [redacted] said she felt Debi was afraid of him to

CONTINUATION
I asked [redacted] about a telephone call he had reportedly received from a member of the [redacted] family. [redacted] stated it was approximately 2:30 in the morning when he got a call from [redacted] who told him who he was and about his father having the motel which was located behind the Cork 'n Embers on Second street. [redacted] had talked to him about the incident in which [redacted] had attempted to assault a girl in the office at the motel. He said he would have shot [redacted] if he could have gotten to his gun in time, but by the time he returned [redacted] was gone. The remainder of the conversation was sympathetic toward [redacted] in that [redacted] had a daughter of his own and certainly would not want anything like that to happen to her. [redacted] could not remember all that was said but did recall the conversation lasted approximately twenty minutes. He just could not get over [redacted] calling at that time of the morning and wondered what was wrong with a guy that would do that. I mentioned to [redacted] that [redacted] may have been high on something when he called and explained to the [redacted] that [redacted] had a history of being involved in drugs. [redacted] said that since Debi's death they had learned that she did have some involvement with marijuana, but until that time they were not aware at all she had anything to do with dope.

I told [redacted] I had not learned anything about Debi being involved with hard narcotics but that [redacted] Reporting Officer(s) Larry E. Thompson/m Off. I.D. Number 429 Prec/Div Operations Force IV Asst/Dst

I did know that she had smoked marijuana from time to time with the boys she was living with on Country Club Park. I mentioned to [redacted] there were several things Debi had written either as work in college, or in letters to her penpal in California. One of the things that came to mind was a story Debi had written about a boy coming to her apartment in a very depressed mood and was contemplating committing suicide. [redacted] replied that had to be [redacted] She had talked with Debi about it and learned [redacted] was very depressed over a girlfriend on the eastern slope. Apparently Debi had succeeded in talking him out of his depression and since that time that situation had worked itself out.

I told [redacted] there had also been mention made in one of her letters to [redacted] in California, that she was flying a plane and either owned a plane or had a partnership with some other persons. [redacted] said the only thing he could tell me about that was that at one time Debi had come home wanting to buy an interest in a plane. [redacted] would not go along with her and told her that if she wanted to do something like that after she got out of college, that was her business, but at the present time he would not go along with it or help her in anyway to get involved in a partnership. He said she used to fly a lot with [redacted] when they were going together and he knew she had talked with someone about taking flight lessons. To the best of his knowledge she had never actually taken a lesson.

In reference to letters Debi had written and received, I asked [redacted] if they had received any sympathy cards from people they did not know. [redacted] looked through a box of sympathy cards they had received, stating there were a couple of people they received cards from and had wondered who

they were. One was a [redacted] Englewood, Colorado. The other was a [redacted] Lakewood, Colorado. [redacted] said these people may have been acquaintances of Debi's but they had no knowledge of when she might have known them.

The remainder of the time at [redacted] was spent going through scrap books and letters of Debi's. Nothing of particular interest was found in these items. Her check book and savings account book along with bills which [redacted] had received after Debi's death were taken by this officer and brought to the police department for further investigation.

Just prior to leaving [redacted] residence I spoke briefly with [redacted] about [redacted] involvement in drug traffic. I told [redacted] to have [redacted] call me the following day as I would like to speak to him further about any mutual involvement he and Debi may have had concerning the sale of marijuana.

SUBJECT: Homicide investigation progress report
for the week of 22 February 1976

During the past week, Captain Hicks has completed his review of the Tomlinson case file and submitted thirty-eight lead sheets containing names of people whom he felt should be either reinterviewed or have their alibis checked for their activities on 27 December 1975.

Time was spent by Officer Olivas, Agent Perkins and myself locating these people. Some of them are no longer in Mesa County and some are no longer in Colorado. Where possible, these people are being contacted by investigators of other law enforcement agencies; however, some are being interviewed via telephone by members of this department.

Throughout the week, there has been continued communication between this task force and other law enforcement agencies. We have received a complete case file from Investigator R. W. Osborn of the Criminal Investigation Division, Nebraska State Patrol in Lincoln, Nebraska. That file is presently in the Tomlinson original case file under "Other Homicides".

Agent Perkins has also spoken with other law enforcement officers in the state of Maine concerning a subject in custody there named, White. Information concerning White has led agent Perkins to believe White could have personal knowledge relating to the disappearance of one or more women missing from different areas in the state of Colorado.

Efforts made to locate a vehicle which was allegedly seen parked outside the Tomlinson apartment at the time of the homicide have resulted in this officer learning that such a vehicle is owned by a who is presently in the U. S. Navy. Steps are being taken to learn the location of and his vehicle at this time and at the time of the homicide.

A strong effort is being made to locate a subject who allegedly came to town on weekends to see Deborah Tomlinson. This subject is reported to be a professional skier and it has been learned by Officer Olivas that Tomlinson claimed to know a "free stylist" named who is from the Salt Lake area.

Information expected from other departments has not arrived as yet and we are still awaiting the outcome of investigations being conducted by officers from other departments.

SUBJECT Up Date of Progress of
Special Homicide Task Force

A meeting of all personnel involved in the investigation of the unsolved homicides within the City was called this date and was called to order at approximately 9 30 A M

The purpose of the meeting was to make everyone aware of all information, new and old, to discuss the new leads and progress made in checking them out, and to discuss the possibilities of other methods of furthering the investigations

Agent R Perkins, Colorado Bureau of Investigation (C B I) advised that only six or seven leads in the Tomlinson homicide remained to be thoroughly checked out

Under hypothesis was able to recall a license plate prefix which might have been on the blue Mazda we have been looking for That prefix was either UP or MG We requested a computer check of all license plates with these prefixes and have been checking all those registered on Mazdas

Tomlinson had been seen by friends with an unidentified male on several occasions at the Winery and other places in town She apparently never spoke of him to her friends She is also known to have been in Aspen and to have been late for registering for the fall college quarter She may have been with this unidentified male at this time He is described as being in his late 20's or 30's 6 feet tall, and could be a traveling salesman of some sort A check of motels in that area for persons registering during that period of time and driving Mazdas will be made This male is known to have been in Grand Junction close to the time of the crime

There are two suspect leads out of state that are being checked out at this time Extradition from Connecticut of one of these subjects is forthcoming Another subject in the Durango area is being checked out Both of these subjects have been convicted of rape and assault in the past and are quite capable of such a crime as we are investigating here

Subject Up Date of Progress of Special Homicide Task Force

There were several suspects, students at Mesa College, whom have been eliminated, but further investigation into these leads due to the nature of some of the information is continuing

Friends of the Tomlinson girl have said that Debi's car was seen at approximately 5 10 P M on the day of the crime in the 1100 block of North Avenue with a male driving This information has been verified and follow up work is being done

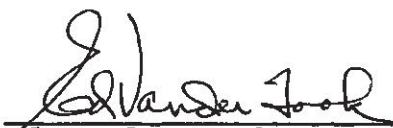

It has been suggested and taken under advisement to obtain the services of a professional composite artist to work with a hynotist to attempt to obtain some sort of description of an identifiable nature regarding the driver of this vehicle

Evidence of Scientific nature One latent print found on the shower head of the bathroom has still not been matched All hair samples submitted so far have been tested with negative results The one sample most recently submitted has been submitted for testing, but there has not been sufficient time for results to be returned

The print found on the shower head as well as those found on some personal papers in the Tomlinson apartment have a whorl

Blood samples in both the Tomlinson and Benson homicides have been tested typed and enzyme breakdown completed One sample taken from the scene of the Benson homicide was too minute to afford an enzyme count

It was decided due to the extent of investigation already made that Agent Perkins and Detective A Olivas will follow present leads to a conclusion in the Tomlinson case Detective Thompson will begin reinterviewing those witnesses and neighbors closest to the crime scene in the Benson case

SUBJECT Up Date of Progress of
 Special Homicide Task Force

A second weekly meeting of all personnel involved in the investigation of the unsolved homicides within the City was called this date. The following was reported and discussed:

Tomlinson Case Sgt. Ron Smith reported that the Task Force has gone completely through the case. Only nine or ten leads remain to be followed up at present. No additional suspects have been developed, with the exception of the unidentified male who was employed by the Pizza Hut the summer of 1975 and whom friends believe Debi may have been seeing at that time.

Photo reproductions of an artist's composite drawing of unidentified male with whom friends had seen Debi on a number of occasions the autumn prior to her death have been released to the news media.

The question was posed: Can we theorize on the murderer being an outsider or someone within the victim's own circle of acquaintances?

All leads and suspects at Mesa College have been eliminated either by geographic location or physical evidence (having been out of town or by hair and blood samples analysis).

A psychological profile has not been made due to much conflict in crime scene evidence which is not conducive to analysis. The theory has been advanced that the suspect could be a social misfit or a loner. He may have had a strong desire to become one of the boys.

No connection has been established between the person and the composite drawing and the blue Mazda. Most Mazdas in this area have been checked and none were found. However, a request of the Division of Motor Vehicles for a print out on all Mazdas registered in the County of Mesa during 1975 will be made.

There has been one interview made. The interviewed person stated that the victim had told her about a person she had some reservations about as this person kept hanging around and acting weird. The interviewed

person felt that this person was someone connected with the college
To date we have not been able to establish who this person may be

is a student at the college and has been interviewed by
Larry Thompson Conclusions of this interview are that is a
very childish person (not violent) and shy with the girls However,
on one occasion he had words with an instructor and pushed and shoved
him

has stated he observed Debi Tomlinson's car south bound
from North Avenue on 11th Street around 5 P M the day of the homicide
An attempt was made to have him hypnotized however he refused after
his parents strongly disagreed to hypnosis due to religious beliefs
It should be noted that information was developed that Debi's car had
been parked in the south lot across the alley prior to the discovery
of the crime Yet the car was parked on the north side of the alley
when police arrived on the scene The car was dusted for latent prints
It should also be noted that the keys to this vehicle are still missing

It is possible the person Debi was reportedly to meet the afternoon of
the homicide was However changed his mind and
decided to go flying instead His alibi has been thoroughly checked
and varified In addition he has been polygraphed

Females have not been entirely eliminated as suspects however we
must point out the semen found at the scene strongly suggests the suspect
is male Also the murderer had to be a very strong person to crush
the larynx which would tend to substantiate the theory of the suspect
being a man

We need to ask Dr Canfield about a woman having done it He must be
set down and asked direct questions A written report has not been
received We need his opinions on several things

Miscellaneous Leads Theodore Bundy has been committed to the Utah
State Department of Corrections for 90 days psychiatric evaluation
The Salt Lake County Sheriff's Office is attempting to obtain hair and
blood samples from Bundy for comparison with our evidence

has been returned to this jurisdiction and we have
obtained hair samples We are awaiting a blood sample

Joe Hicks is ready to begin indexing the file

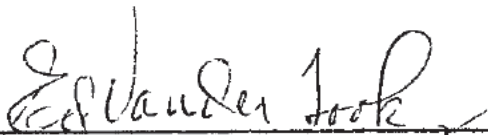

A composite drawing has been made and released to the news media of a man saw coming around the north side of the building about 3 A M the morning of the homicide The composite is the result of descriptions given by while under hypnosis The crime scene indicates that the suspect was injured by either a stab or cut wound

We still have reservations about He still is a suspect His alibi does not eliminate him as he had time to drive from Craig to commit the crime and return to Craig during the time noone can substantiate his whereabouts

Suspect profile in this case has been advanced on the theory this is a sex related crime however, we have no conclusive evidence of this being a sex crime

It will take nearly a month to bring the Benson case to the point that the Tomlinson case is at this time

stated that on 12-23-75 she walked out of her room and saw a man who appeared to be hiding by the stairs. She asked him what he was doing, but got no answer. The man started to leave, but called him back, asking him what he was doing there. He said he was looking for and when he spoke, got the impression he had a speech impediment. He was in his mid-20's, about 5'7" tall, 135 lbs, had dark brown curly hair, and was wearing dark rimmed glasses with thick lenses. turned and called out to who came to her door, but upon turning back, she heard the door closing downstairs and the subject was gone. She said that would probably be able to tell me more about the subject when she returned after the Christmas break.

At 1830 hrs. I recieved a phone call from

He stated he

psychic

was a college student at Western State College and had contact with a person who through psychic powers and math equations had come up with information on this case that we should have.

He stated the following: The suspect is still in the Grand Junction area. He is NorthEast of the crime scene. He either lives or works there. He should be about 10 degrees North. If Mesa College is in that area then Mesa is where he is at. He is only a short distance from the scene. He has bad teeth. He has a recurring back problem. He is

seperated from his family, but it is by circumstance rather than quarrel. He desires education but has trouble with his letters and writing. He is quick tempered and often shows bad or poor judgement. He is overly interested in change and travel. His friends are not low class. He is either a student or a teacher in political science.

He is staying with his daily obligations. (has not left Grand Junction). Odds are good to catch him, best chance is on 19 Jan. 1976.

DEBBIE did not have a choice, no free will, except verbal. Person who killed her could be a former romantic interest. Although the paper said there was forced entry, there really was no forced entry. Debbie allowed the killer to enter the apartment.

the address. I asked what he was doing here and he said he had an appointment with a Mrs. James College at Casco. I told him I thought it was said of Strong that he came into a dog early and walked around all night long for no apparent reason. All he could say is that he always walks around all night. Even when it's real cold. I showed him that it's not advisable to do so and I didn't want to see him walking around there anymore. He walked to that he came that Officer Schumme and noticed earlier with other gear. He came walking from the north when I contacted him and his car was another 200 feet to the South still. He also had no reason for going where he did.

He showed me on a card from Mass for the winter Spring Quarter 1975 and he said he didn't go last winter.

He said apparently one of the Service address but he seemed to see away from telling me why at first he told me he lived in Little. He was very nervous standing there while I talked to him, constantly moving his feet with his feet. Schumme was also nervous from being there.

So Gorgy pointed that there is a continued Subject

has a red beard (beard in his tree) tied around his right leg and he also seemed to be left-handed.

I believe this person should be contacted by Lt. Smith's force for interview.

MR SHERIFF AT GRAND JUNCTION

some time back I was in Durango and I hear a radio program and they say a girl was hurt or gone or something up there and her folks was on a farm or ranch out by Triuta and there name was and I felt like I had heard that name up there before.

This bothered me and I keep remembering about it and now I remember what it was. It was some 3 yrs ago when I worked on that new road out from Grand Junction toward Utah and sometime I stayed in that little town Triuta at a little hotel kind of and I eat some meals in a cafe the little Red hen right in front of the town square and a grocery store was pretty close by the hotel. I can't recollect the name of the hotel;

There was a cowboy used to be around the hotel sometimes and he eat sometime at the cafe and one time he says he works for Jimmie Thomson and I remember his name for I have had a teacher in school back in Iowa and his name was and he was our base ball coach too. His name really was James but everyone calls him

Jim. I remember when this cowboy says he works for but I think the cowboy says he works in the hills in Utah on a farm or ranch maybe. The people there called the cowboy Henri. I believe he was tall and wore a big black hat and a black shirt and blue cowboy pants and cowboy boots. He was there just sometimes I guess when he was in town.

One night I was in the grocery store to get some cookys and things for in my truck and two women was there talking about there childrens and there girls and this cowboy came in and he talked a minute to the womens and went out and I heard them talk about him then. and they did not like him much and one of them said when she was in there store alone and she saw him coming along the road she locked the door and hid for she was afraid of him. the other one said he came around her girls and she didnt like it either. but they did not speak his name. he was about 50 yrs old maybe and maybe older. all this was about 3 yrs ago. now I hear the name Jimmie Thomson on the radio and how his girl was hurt or somethin and I remember that time in the store. the womens was about middle age maybe. one was a little gray hair

There was a lot of trees in the square and a phone box there I could see from the hotel

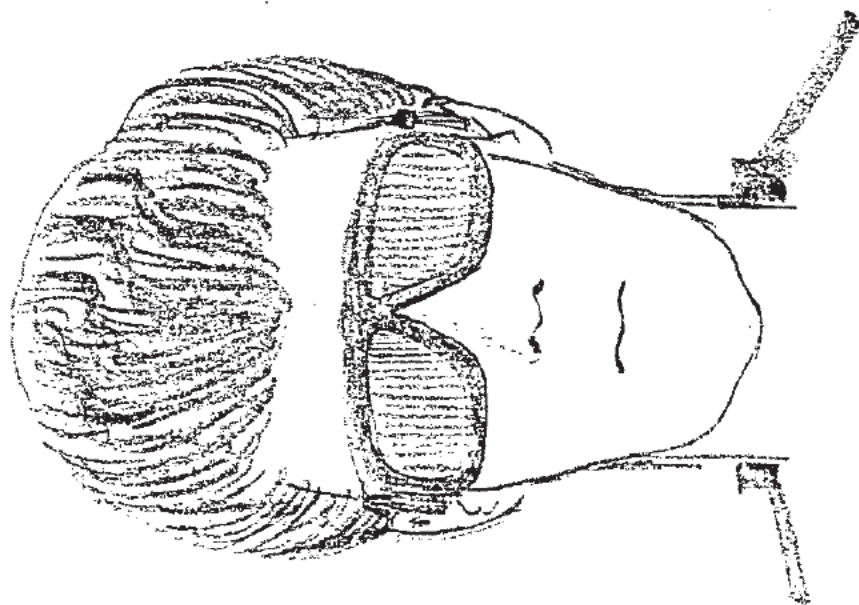

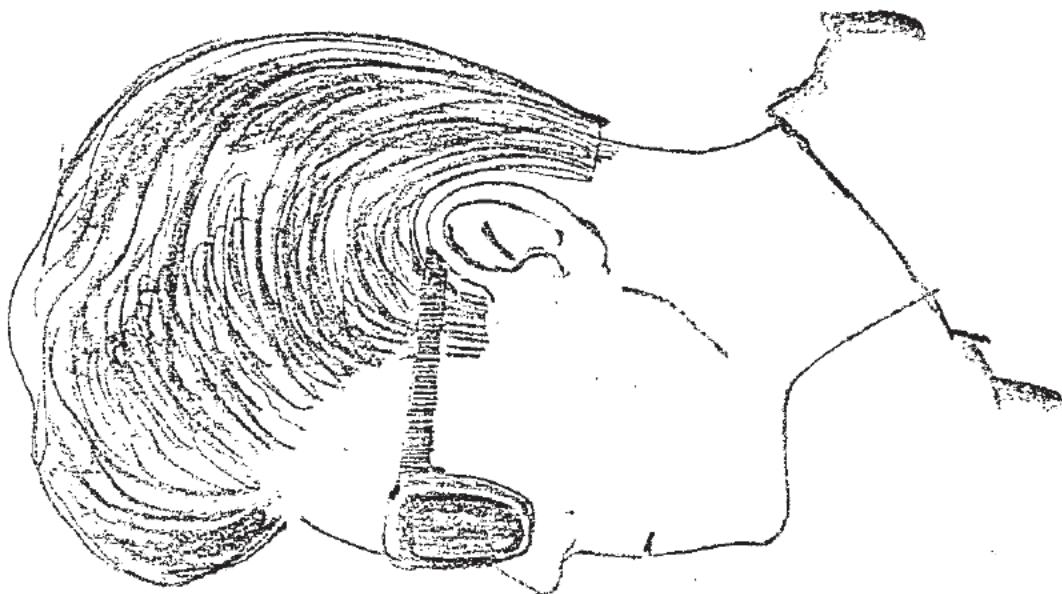

I dont know if there was another around there but you probably will know and maybe you know all about it anyway but when I hear that name it just bothered me so I taken the time to send tale to you but I dont know any more

Lt.:

I haven't been up to buy you a taco for quite awhile. Take a look at this and see if any of it helps:

DEBBIE TOMLINSON-----SUSPECT ---CASE

Suspect still remains in the same environment he was in at the time of the killing; (environment: Mesa College, where he lives, works and most probably is a student). Suspect is feeling safe from the law. He appears to have more than one job as he attends school. His finances are such that he needs to work; one of his jobs is menial in nature, such as cafeteria-food job, domestic nature of cleaning, etc.

His other job may be associated with publishing, such as the school paper.... He does not make much money at any one of his jobs.

Suspect's daily routine, for example, would be classes, job, classes, job. He hangs his hat most anywhere on campus, does not appear to have a fixed place where he stays on campus; that is, he might sleep at times on a cot (janitor's room, etc., or stay with a friend on campus....if he does have a permanent room on campus, he sleeps, stays elsewhere on campus also.

Appears suspect was detained for a very brief time by the law soon after Debbie's death (this detention was very brief and may not have involved a lie-detector test or much interrogating). Altho the law released him, he is not finished with the law. However, this does not mean that the law recognizes or suspects him of being Debbie's killer.

Appears suspect's immediate family lives outside the United States, possibly a South Pacific island. Suspect has lots of family outside U.S. There will be a death in his family (male authority figure in his immediate family) between now and April 15. Suspect's father or male authority figure in his family may have been hospitalized in December, 1975. Does not appear suspect left U.S. during holiday or Christmas season of 1975.

Suspect's personality around the college indicates he is popular; appears he was studying/involved with/rehearsing for a school play/drama during late last year, but the play would not be presented until after Dec. 29, 1975. Debbie could have been associated with this play in some "background" way. Suspect appears to have an "official" long name, but may go by a shorter name, of course. Suspect appears to have a good voice for singing---musical talent.

It appears that Debbie and suspect worked/associated with same school newspaper, with Debbie being subordinate to suspect.

Appears suspect walked (no auto involved, altho suspect may own an older model vehicle) to Debbie's residence just before he killed her. Suspect was allowed in by Debbie, who knew him. After he impulsively killed her, he left quickly, but did not walk in the way he exited from the building...climbing indicated and a window, such that he might have exited through a window. He then moved quickly to his next destination.

Appears he went southeast of crime scene and about as far south from the crime scene as the college is north of the crime scene. Appears to be almost a straight line between his destination immediately after the killing and the location of the college. Appears suspect went to a group gathering very soon after the murder. A group gathering where group sports occur/group activity. This would of course indicate a southerly direction from Mesa College, past or near Lincoln Park...maybe a gym in a church, or an intramural gym. Long shot possibility: Suspect --dark hair, very dark eyes (but bright--sparkly)--darker shade of skin, but not black. Suspect could be oriental, in his early 20's. First killing for suspect---has impulsive, uncontrollable temper (at times).

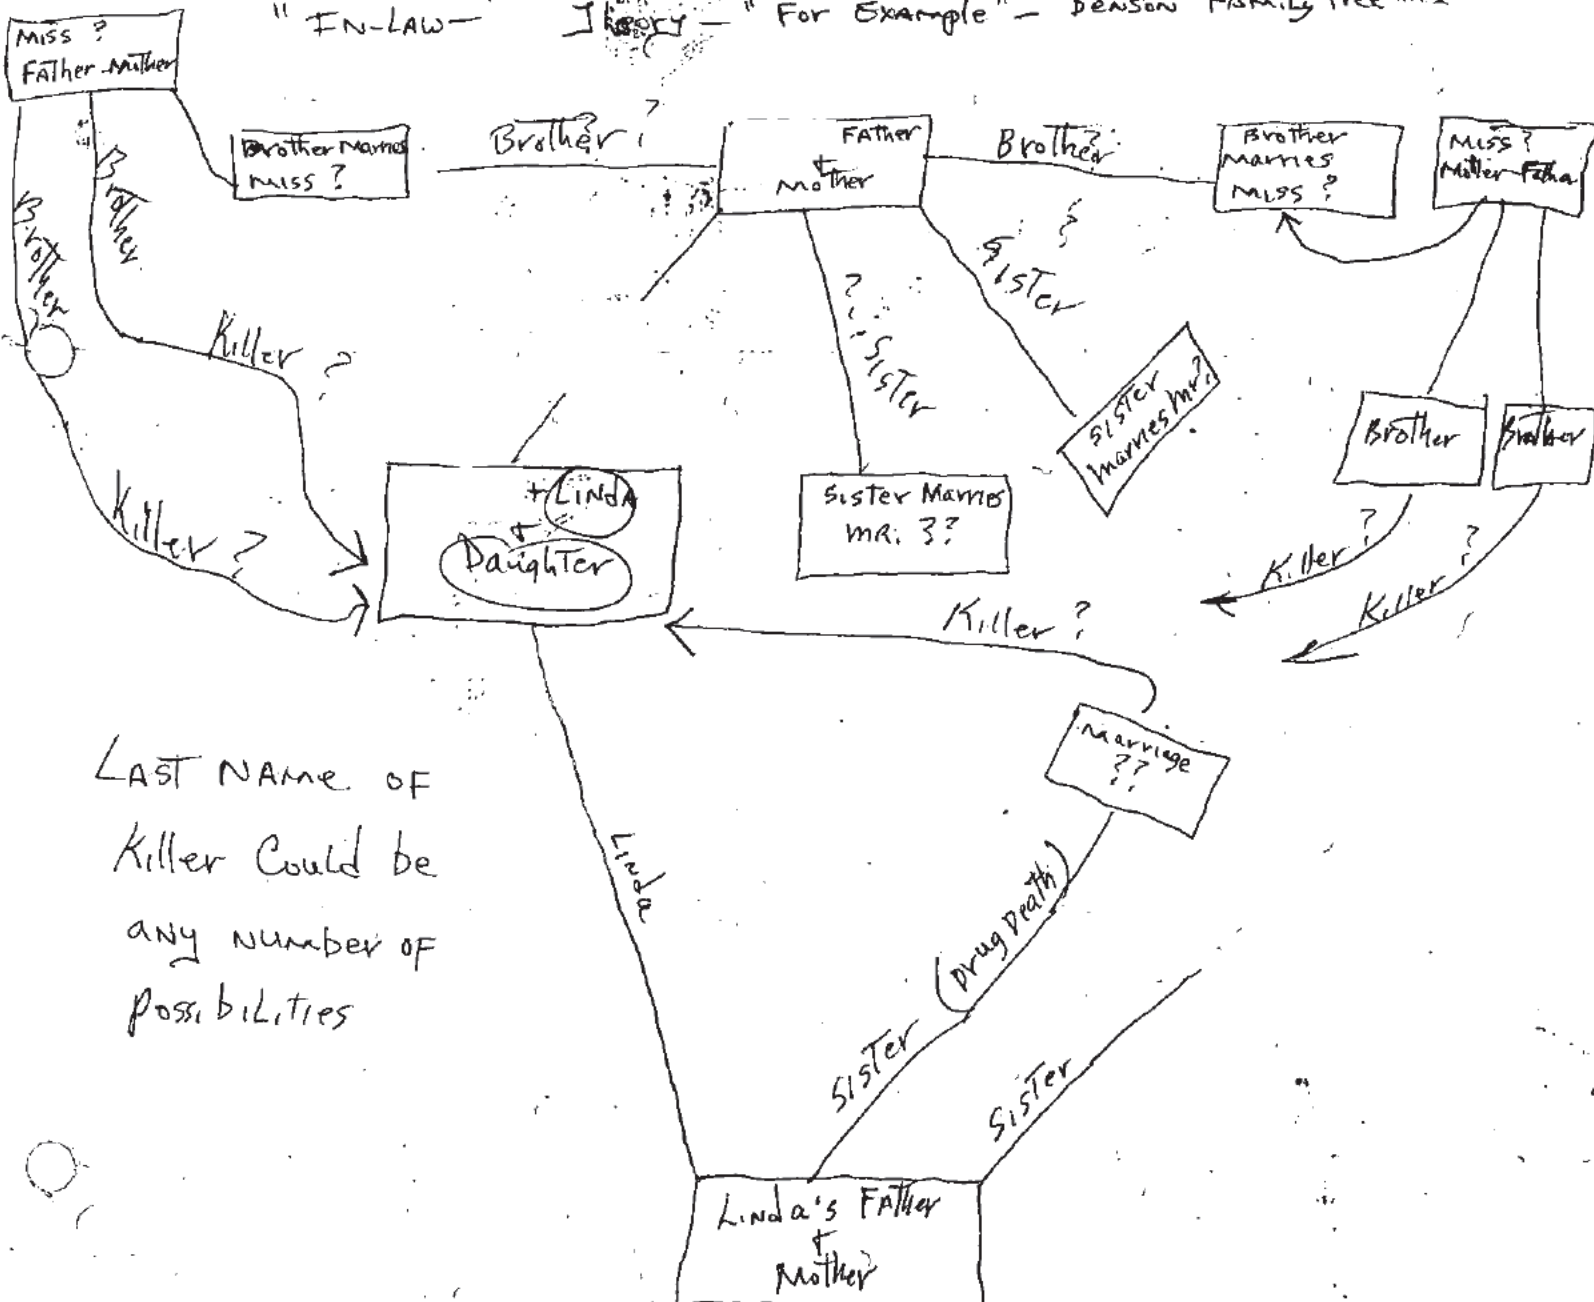

DENISE OLIVERSON

Further analysis indicates, in addition to being kidnapped, raped and murdered and body thrown in river in DeBeque Canyon, that Denise suffered violence to her head (steel or iron) and that her hands were bound (steel or iron) when she was thrown into the river. Friend mentioned auto was involved in crime. Friend now says that body of Denise will not be found for a very long time---if ever. Body now a long ways downstream from where it was thrown in.

LINDA BENSON & DAUGHTER----Suspect

Friend still believes "in-law" did this. Male relation on Benson family tree. When info sent to you people, indication suspect was confined for medical treatment of stab wound to abdomen or chest. Confined in the direction of Ouray-Durango. However, this was a private confinement by family (member)---female member(s)---- Suspect moved north and gradually northwest after his December, 1975 release from treatment. May have passed through Crested Butte area, or further east. There is a Benson listed in Crested Butte phone directory, but relationship, if any, is not known.

The purpose of the conversation was to gain information about Deborah
Tomlinson's family life and relationships with

I first asked if he would relate the conversation he had with
Deborah on 12/27/75, which he had stated was at approximately 1500 hours.
advised that on 12/27/75, 1500 hours, he received a call from
Deborah. He could not recall the exact conversation but recalled Debbie
told him she had just finished eating and decided to call the family.
He did not know if Debbie had fixed her own lunch or if she had gone out
to ~~xxx~~ lunch with someone but had the impression she had gone out for
something to eat; perhaps at a drive-in restaurant.

I then asked if Deborah told him she was thinking about
party (information gained from
advised that after thinking about it, he did not believe that Deborah
mentioned going or think about going to party because at about 2100
hours that evening, a neighbor by the name of
called and asked them if they were going to the party and
at that time, recalled telling that they did not know
was having a party on that evening. also felt sure it
was around three o'clock in the afternoon when Deborah called from her
apartment because at that time, he was watching a football game.

I asked if Debbie spent Christmas at his residence and he
said yes. ~~XXXXXX~~ also spent Christmas day at his residence.
He also said that Debbie had stayed overnight Christmas Day and had returned
to her apartment on the 26th and that he did not know what she had done on
the 26th of December. I asked if they had taken any pictures on Christmas

I then asked if there was any other reaction from from Debbie's death. He said that did not seem overly emotional and did not talk much about her death. He never saw or Debbie playing and wrestling around in the living room etc. or ever hear them talk bad about each other, other than like a brother and sister would do. I asked if he knew what activities were for the 27th or if he could give a general description as to the type of person was. advised that he never noted any bad feeling between Debbie and but that was a person who could get mad very easily and had a temper. I asked about the phone call he received from said he thought it was rather strange he received a call from at three in the morning. He recalled that he told about the call the following morning. said he knew the name and that they owned the Athens Motel in Grand Junction.

I told that said in an interview with Chuck Allen that he often wondered where Debbie was getting her money. To this said that around Thanksgiving 1975, had asked him where Debbie was getting her money and said his reason for asking was one of the students living with Debbie at Country Club had asked him about it. The students name was advised that as far as the money Debbie was getting, it consisted of what he gave her and what she had earned from her employment and money from selling some ~~xx~~ livestock.

I asked if had ever borrowed anything from Debbie or if Debbie had borrowed anything else besides the pickup from He said he could not recall either one of them borrowing anything from each other but said that if they did they usually just went over to one anothers place, wherever it might be, and just took the item and did not ask. He then showed the officers some of Debbie's paperwork and I did find a check written by Deborah on 12/26/75 to the Loma General Store for levis. It was also found in her checking account, that she did not have any unusually large amounts of money deposited in her savings or checking account. said that when Debbie was living with the other students at Country Club (on Country Club Road) that the other students would usually give her the money and she would deposit the money into the checking account and make out a check for the rent. They could add nothing further and the interview was terminated.

REPORT OF INTERVIEW

Date July 27, 1977

INTERVIEW:

was interviewed with reference to the Tomlinson Homicide and made the following statements about her thoughts on the case:

stated that Debi used to come to her and tell her her all her problems and thoughts. Debi treated her more like another person of her own age, and talked to her about boyfriends, family problems etc. Told her about getting involved with pretty heavily, and that she had talked Debi into seeing a doctor about getting birth control pills, which Debi did get.

Debi confided in during her sophomore year in high school, that she had a real crush on and asked what she thought and would think about her having a romance with

thinks that the reason that Debi confided in her so much was because Debi inquired from her about her real father and also because of all the kids Debi was always kind of the black sheep and that she thought that Debi felt this to some extent.

When asked about the likelihood of Debi's having been involved in an affair with she stated that it was possible and that this was something that Debi would have been very cautious not to let anyone find out about it.

She stated that she has seen lose his temper and that he has a "terrible" temper and that he loses his temper very easily and really flies off the handle.

stated that she had heard that Debi and had been in a "tremendous" fight, just prior to Debi's murder, possibly one or two weeks. She also stated that they had often gotten into fights and that when they fought they really fought (threw things at each other etc.)

stated that although she is fond of he is her prime suspect in relation to Debi's murder.

stated that she had detected a strain in the relationship between Debi and for some time, but really didn't know what the problem was between them.

The day of the funeral, found in the back bedroom of the Tomlinson house "staring out into space" and had a wierd feeling about this.

Just a few days after the murder, was driving down a back road and saw sitting beside the road in a Bronco having an agitated discussion about something, they looked funny when they saw her coming down the road and stopped talking, until after she had passed. She feels certain that they were talking about something to do with Debi's murder.

At this time I asked [redacted] how come [redacted] was calling her, if she knew him. She said Yes she knew [redacted] because [redacted] knew her mother, very well and figured that since she went to school in Fruita she might know something about Debbie Tomlinson. was advised of his rights per Miranda by Officer Vig with Tony Olivas present. He understood his rights and was willing to talk about who was murdered, who is Debbie Tomlison. He did not want an attorney present. Debbie was okay as far as he knew and her behavior was probably kind of moody, self-centered, to herself, kind of pouty and looked for sympathy. Also, he said Debbie would like to get around and maybe play a role, someone but herself or something - express. He stated that she had no real close boyfriends at that time, just once which was which that relationship broke up prior. At the time of her death, she didn't have have any real close boyfriends that she dated quite often. He thought that she was kind of flirty toward the boys, which he heard from as one, 'cause mentioned to him about Debbie being loose with herself.

Also, said about Debbie, that she was young, didn't know where she was really going, at the time, she was learning by experience - life on her own just like any young girl would be. Also, he was asked the closest she was with/to her mother or her dad. said in his opinion she was closest to her dad, which is his said he went to Mesa College, he figured the winter quarter of '74 or could be the winter quarter of '75, but he thought it was '74. He took a botany class and fine arts. He said he knew a couple of people who lived up there in the Country Club where Debbie stayed with some boys. And one of them he said was he had a botany class with him and then maybe a guy by the name of he wasn't sure if that was a nickname or even if he did stay up there, but he knew he knew a guy named that went to Botany class with him. Otherwise, that's about the only ones he knew up there where Debbie was staying prior to moving to the apartment on Belford Ave.

Also, he said he had been into the house up there where she was staying with these boys and this was at a birthday party for Debbie's girlfriend or one of the girls that lived there too, on Country Club Road. He believed this was in 1975, but he can't recall for sure. He thought maybe it was the fall, but he wasn't sure what month. The month might be October or November, he wasn't sure.

I-236

July 30th, 1977

Back to what kind of person Debbie was again. He said that she was a complying person, no certain person that she would go to. That he thinks if she had any kind of problems, besides her parents, any close friends or anything, he didn't know of any there.

Debbie would talk to him about her relationship with other men. What would think about that, like having a sexual relationship or going to bed with somebody that she liked and would tell his part, but she would have to make up her own decision on that, that you just don't go around going to bed with any man that came along, but this is something that she would have to make up her own mind. This is another one of those -- going along with life. This is concerning a talk about sexual relationship, sexual morals, that having sex with other guys before marriage sex. Like, you know, whatever made her happy, but that even if she did, lightening was not going to come down and strike you for doing this. Also, said that when Debbie would come to the house, there where he had stayed with in Grand Junction, when she did come there she was kind of giggly, you know, maybe felt out of place, embarrassed, because, on account of the older boys there being present. She just didn't know how to act. At this time, we asked if any, or any of the other boys that he knew dated her or had sexual relationships with her. He said no. dated her. As far as going to bed with her or anything, he didn't know anything there. He said didn't, didn't date her or as far as he knew, didn't have any sexual relationships with her.

Concerning the party at Redlands Country Club that night that Debbie was killed, said he was planning to leave to Florida the next day, which would have been the 28th of December of 1975, but he didn't on account of Debbie's death. Also, said, during that party there the 27th of December of 1975, most of the time he was up there, after he probably arrived at 4:00, he wasn't sure of the time, but preparing for this party he was making, running errands, like he had to go up to the house and pick up some stuff or downtown or someplace, he said no certain person was with him at all times while he was running these errands, but he remembered leaving several times. He recalls going to the house where he may have to pick up

July 30th, 1977

some things to prepare for the party. He remembered seeing off and on, his roommate. He drove back to change clothes to get ready for the party about 5:00 or 5:30 and he said was there then, when he was getting ready. Also, stated he got to the party after picking up his date, who was approx- imately 6:30 PM that night and he thinks maybe the party started at 6:00. He stated when he learned about Debbie's death, he got a phone call from He thought this was approximately 8:30 PM, he wasn't sure of the time and this call was from and told him that Debbie had been murdered.

Also, back to loaning any stuff out, he said Debbie came over and borrowed his truck to haul some firewood from the ranch for up there in Country Club. He said this was with her when they picked up the truck. Also, he picked up the truck the next day at Debbie's apartment and he said that was the last time that he was at her apartment. He drove her car up there and picked up his truck, he said he was there approximately fifteen (15) minutes. He said Debbie showed him through the apartment then he left. There was no arguing or anything; they were on good terms.

Also, was asked what officers that he can remember that he talked to. He said he recalls that he talked to once, then he thinks he remembers, he wasn't sure of the name, the officers mentioned Fred Albrecht and he said, "Yes, that's who it was" had come to the ranch a couple times, his brother's ranch, And he talked to him a couple times out there when he talked to He was asked by the officers if Fred Albrecht or Chuck Allen or any other officers, told him anything about how Debbie died. He said no, they did not tell him anything about that, how she was killed. But he did hear through somewhere, he thought maybe it was was that she was strangled, hit on the head with a hammer, which was on the temple and placed in the bathtub. Hit on the head was why no screaming or fighting and also that she knew the person.

His, theory was that maybe Debbie was hit on the head when she walked in the door, that's why no screams. This was his opinion. And no struggle; this was his opinion on this case. Also, was asked if Debbie would get mad.

July 30th, 1977

He said, yes, she would get mad, but she would maybe keep it within herself, but she would strike out on occasions. Also, said Debbie would scrap back, if she had the opportunity to do it. Also, stated on December 27th, 1975, the date that Debbie got killed, said he did not talk to her or was not at her apartment or that she even called him or he called her on that date. also was asked if Debbie knew about the party. said yes, he told her about the party at Redland's Country club on Christmas Day at the ranch, when they were out there at her dad's place, that she was welcome to come. said that night at the party he wore his tux, but actually in dressing for the party they could come formal or informal. Like he said some wore suits, some of the women wore long dresses, but other ones came in levis or any way they wanted to dress. Also, was asked who planned this party and said himself and and some of the bowling team, the bowling team they had helped with the party planning. Also, was asked how Debbie was, how her ways were on Christmas Day out there at the ranch. He said that she seemed okay, she didn't seem very depressed or anything. He was asked what clothes she was wearing and he said a brown turtle necked sweater. That he is pretty sure of and then probably levis and then maybe hiking boots. Also, said the last time he saw Debbie Tomlinson was on Christmas Day at the ranch at his brother's place. He said he didn't see her on the 26th, didn't call her on the 26th or even went to her apartment or did she come down there on the 26th. Also, on the 27th day of December of 1975, he did not call her, did not go up to her apartment and she did not call him nor did she come to his apartment; this was on the 27th day of December of 1975. was asked of Debbie might have had her car fixed, if she had problems with it like changing plugs or something. said that most of her trading was at the Super Service Station in Fruita, Colorado and up in Grand Junction - he didn't know where, but she never asked him to fix anything on her car or bring it over if she had trouble with the car. Also, stated that Debbie was fortunate that she could travel a lot, also, she was a little spoiled but not really that much, being raised up they held a pretty good rein on her. She wasn't really spoiled that bad. Also, Debbie at times, when she would come over to his house when older men his age were there, she seemed like she was confused, that she had to learn, and she also didn't really feel right and know how to act toward men. Also, that Debbie was not allowed to date until she was sixteen years old, go out with any boys.

July 30th, 1977

was asked if Debbie ever approached him with any problems that maybe she wouldn't tell her parents. He said no, not really, the problems she would talk to him about were like what she should take in college, what she should be when she's older, what kind of car she should buy, things like that, not really come down to any real problems concerning her life, just what she should do, what she should become. Also,

said Debbie would ask him about maybe setting up a date for one of his friends,

and She did like but he didn't know if she dated him or not, but yes, she did date. But, told him once that he was not interested in her and that also told him that Debbie kind of came on strong to him, but he did not go to bed with her. Also, stated that was a friend of they are both from Florida and they were both in Florida during the Christmas Holidays. said that Debbie came over five or six times while

he lived there on Rosevale Road, but when she did come over, she felt kind of out of place on account of the older people there, his friends. When she did come over, everybody was just casual. He was also asked what kind of person his roommate,

was. He said a real good person. That Debbie and him got along good and everything. Also, that never did date Debbie Tomlinson. Also, when she did come over, there was no dirty jokes told while she was there. Also, said when he explained to Debbie about her sexual morals, that she did listen to him when he was talking to her. But he told her it was her life and she would have to make the decisions, but if she listened to him, he doesn't know. Also, mentioned that he did on occasions notice Debbie was a little flirty towards the guys when he was present, but nothing really out of the way. He was asked if Debbie kind of flirted with him and he said she never gave him the idea that she was flirting or giving him the come-on toward her. Some of the activities that were asked were being done to prepare for the party, he said he had to pick up a suit, also some firewood for the party, also some food at but he said was the one that went to to pick up the food for the party. He stated he got to the party at approximately 6:30 PM on that date. He stated that did stop by when they were preparing for the party, but just to see how things were going.

stated when he got the call from around 8:30 PM that night about Debbie being murdered, that he left the party, took his date, home. At this time, he was asked what vehicle he was driving. He stated he was driving his friend's

July 30th, 1977

vehicle, which was [redacted] vehicle. [redacted] had come over earlier that afternoon and borrowed his truck and [redacted] Volkswagon, which was yellow in color with red & black stripes. He said he took [redacted] home and then left to go out to [redacted] ranch to kind of calm him down and help him. It was quite a blow to him. He said he stayed there, until he arrived home on Rosevale at approximately 5:00 AM that morning, he thought. When he arrived out at the ranch to be with [redacted]

[redacted] he said, his mother and step-father were at [redacted] place, too. Also, [redacted] stated that it was common practice for them to borrow each other's stuff (Debbie and [redacted])

He recalls Debbie borrowing shirts- flannel shirts, long sleeved, but he can't remember loaning anything to her in November or December of that year. He just can't recall if she did borrow, what it was. Also, [redacted] stated that he can't recall what he borrowed from Debbie, he just can't recall it, when was the last time, either. Also, so he said, for Christmas, he gave her a bunch of picture frames. [redacted] stated last time he was at Debbie's apartment, he said the first statement he talked to Chuck Allen he said maybe he might have said November of 1975, but he wasn't sure, but it could have been the first part of December of 1975 and this is when he went there to pick up the truck that Debbie and [redacted] used to haul some firewood and that was the last time that he was at Debbie Tomlinson's apartment. Also, he was asked besides the shirts, of anything else Debbie borrowed. He said, no, he just can't recall anything else, that if she did borrow besides just the shirts. He also was asked what mostly Debbie wore. He said mostly levis, hiking boots, western shirts - flannel type. Jewelry, mostly rings, type he wasn't sure, but she did wear jewelry. Also, he was asked, talking to Chuck Allen, why he mentioned the name [redacted] he said the reason why he mentioned that, because [redacted]

[redacted] told him about this [redacted] calling him in the middle of the night and talking about Debbie's death and this is where he got the idea of [redacted]

Also, he was asked what he knew about what [redacted] ran, he said the Athens Motel. At this time, [redacted] was asked what he heard about that, he said, well, he heard rumors around that he runs girls. But didn't have any knowledge that Debbie had anything to do with working for [redacted] or she never did mention being down at the Athens Motel, so no knowledge of that. At this time, [redacted] was asked his opinion of probably what happened to Debbie. He said, well, the first thing he could think of that might have something to do with Debbie was [redacted] because of the split up. They were planning on [redacted]

July 30th, 1977

getting married, then, they had a big split up and she took off, that was his first thought. His opinion was that there was a stranger involved in this. Also, if she didn't eat in her own house, fix her own meal or anything, then Debbie would go to Taco Bell, Pizza Hut, or some place like that to eat. said last time that he was alone with Debbie at any time, was when he took her out to eat at the Cork'n'Embers once and this was the last time they were together by themselves, this was the winter of 1974. But never did go to any parties with Debbie or alone with Debbie to any parties.

was asked if Debbie was involved in any marijuana or drugs. He said he had seen Debbie smoke a joint and this was at his house in the fall of 1975. She had approached him about getting some pot for a friend, which he stated he didn't do, but if she wanted marijuana, she would probably get it from him. Not a big amount like a couple of baggies or anything, but he remembered that she - Debbie - told that she traded a macrame pot to for a couple of baggies of marijuana, but otherwise, that is the only person besides him that/where she might have gotten some marijuana. was asked if Debbie brought any friends out, boy friends, girl friends out to his house when she came. He said just one that he could remember and that was a girl by the name of

who came out to his house with her on Rosevale Road. was asked if he smoked pot. He said, yeh, he smoked pot occasionally, he'd sell some, maybe he'd get two baggies, he'd sell one baggy to his friend. He was asked if

smoked pot. He said average pot smokers, no heavy smokers. Also, stated that Debbie would come to his house and change her clothes and take a shower when she was working at the Pizza Hut and was living out at the ranch with her folks. She would stop by the house and change her clothes and that. was asked if any dirty jokes of anything was told. He said, no, that he could recall. At this time, the officers brought up about the magic marker. He said, oh yeh, that's right, he said him and did mark a round circle on the door. He said next to the bedroom door, once she was changing clothes and when she came out, they looked like they were looking through there and she got upset and then later looked at it and kind of joked with them, you know, laughed about it. She got mad at first but when she found out what it was, she was just kind of joking with it. He was asked who was all there at the time.

He said, but he said there was somebody else too, but he just can't recall who it was, when they did that. said he bought the house there at in the fall of 1974. said that his relationship with Debbie was maybe a friend to friend, but more like uncle and niece. He wouldn't call her up and say let's go to the movie or anything like that. This was his feeling in the back of his mind; it was more like uncle and niece.

said the last time he can recall having any argument with Debbie was back on the ranch when they were more together. She was good to do her chores, but maybe she would come, not take care of her horse right and they get in a little argument, but it wouldn't come to blow to blow or anything like that, but that was the last time he can recall having any arguments would be back on the ranch when she was about seventeen or sixteen years old, the last time he had any argument with her.

was asked when they did get into an argument or even on the ranch playing did he ever wrestle with her, take her down, brother-sister type. He said, no, he never did that. He was also asked if he wrestled with her like he did his mother, you know, greetings like he does mostly all his relatives, his family is knitted kind of close. said he liked Debbie, she was good to be around, but this was

relationship. She was an intelligent girl, but well liked to be around with. was asked if he heard anything was missing from Debbie's apartment concerning her death. He said the only thing he recalls of anything missing was car keys. We asked him what type of car keys. He said the way he understood it, when he heard from I guess, he wasn't sure, was that they were on a long kind of small chain, kind of a long chain. He said maybe there were other things mentioned, but he just can't recall, they don't know if there is anything else missing as far as he know on that point. said it was his feeling that what might have happened to Debbie that night was that somebody followed her into the apartment, hit her on the head, or she asked somebody in and he took advantage of her or just a stranger she might have picked up on the road. He just wasn't sure. At this time also, was asked if he had an argument - a big blow out - with Debbie just prior, maybe a week or two weeks prior to her death, that we heard rumors on. He said, no, he had no argument at all with Debbie. Also, was asked that we had heard that Debbie had a crush toward him. He said if she did it was probably

July 30th, 1977

more of a respect type of a crush or simple relationship like type, what he assumed to him. He said also that he did not have any sexual relationship with Debbie at any time. When he said he'd never had any sexual relationship with Debbie, he said he may of had some flashes back in his mind, thinking about it, but never had any sexual relationship with her. Also, was asked if he knew how her apartment was arranged. He said, yeh, roughly he did, he knew the bathroom was off the bedroom and the kitchen, living room was kind of together. He remembers this when Debbie showed him her apartment, through the whole apartment, when he picked up his truck when/after she got done hauling firewood, he was there approximately 15 minutes, this was the first part of December of 1975. He was asked in the fifteen minutes he spent there what they talked about. He said, she showed him through her apartment, talked about, he asked her what classes she was taking at the college and he told her how they were getting along and everything, that was about the extent of the conversation. Also, was asked by the officers, that we had heard that he had told somebody that they was lunch for two that day that Debbie got killed. He said he never told anybody about that, he has no knowledge about that dinner for two or anything. Also, was asked by the officers if he had any knowledge of the autopsy report on Debbie Tomlinson. He said only thing, no, he said only thing that she had been killed, that blow to the head on the temple, had been sexually assaulted after death and that's about it on that. He also doesn't know how she was tied, but assumed that she was hit on the head and then carried to the tub. Asked it the officers told him this or who he had heard it from. He thought it was either from on this. Officers asked who had heard that he had taken off a couple of weeks and said, yes, that he had gone to Steamboat Springs, Denver, Lamar, Yampa. He remembered he left January 6th of 1976 and was gone until the 10th of 1976. Also, he stopped by while he was over there and saw . He said he went there to get away from it all, he said that society was in a mess at that time.

Also, was asked by the officers if he knew his blood type. He said he sure didn't, but he said maybe Dr. Huskey in Fruita would have it. He was the family doctor and he might have gotten his blood type or maybe call St. Mary's. He had knee surgery up there in '67 during football season, but he didn'd know even if he does have his blood type taken, but he is willing to help us and check

July 30th, 1977

into that and find out what his blood type is. said that on the day of December 27th, 1975, he said he picked up his suit at approximately 11:00 AM. He got that at Millie's Bridal Loft on Orchard and 12th Street. He remembered getting that and taking that home. He was by himself when he went there. He said he could have gone to Fruita, out that way, because was using his truck to haul some firewood. He is not sure if he went to Fruita or not, but he did work preparing for the party, got there at approximately 4:00 at the Redlands Country Club and made some trips to the house or some other place, but when he was gone to make these trips, he was by himself. He remembers when he came home to get ready, which was about 5:00 PM or 5:30 PM. was there at the house. Correction later on in the interview: said the yellow Volkswagon that he borrowed of

 that he went to the party with was yellow but not blue and red stripes, it was black and red stripes. Also, was asked why the keys were missing. He said, well, maybe, he speculated that maybe somebody was planning to come back and get the car to remove the body. Also, said that he heard that Debbie had bought a wooden handle hammer, a claw hammer, a true tempered, he assumed it was a claw hammer then hit on the head in the temple. Asked where he heard this and he said had brought this up, telling him also that she was hit on the head in the kitchen then carried to the bathtub. was asked if he would be willing to take a polygraph concerning Debbie's death. He said, yeh, he didn't know why he shouldn't be willing to take it, polygraph. He was willing to take it right now, if possible. Also, officer asked him if he knew anything about He said, no, he said, but his name did come up. He thought this was probably during the police investigation and he heard this from but it came through the police during their investigation. He never heard Debbie mention or he doesn't know who he is. Also, so he said, and no problems at all, gets along with them real good. He was asked if he knew, if was the real father of Debbie Tomlinson. He said, no, was the real father, that Debbie was adopted when got married. She was approximately a year of a year and a half old, wasn't sure, but she was real young. He said he's knew if since they got married, because Debbie was already there and of the three grandparents, which Debbie would visit amongst the three. They probably

July 30th, 1977

told her this, but don't know when. It wouldn't take her long to figure that out having three sets of grandparents. was asked if Debbie said anything about her real father, or being her step-father. He said, no, Debbie said nothing to him about it. He never brought up the subject and she never did, there was never anything discussed about that.

At this time, Officer Olivas advised that we did pick up some hair from the body of Debbie Tomlinson and that the hair matched his known sample that he had given to the police prior. He was startled about this. He said, what can I say, I just can't believe it. It was the only thing could answer on that. At this time, Officer Vig and Officer Olivas asked him if he had any reason why the hair would be found on the body, maybe something he wanted to change that he had told us, maybe sexual relationship. He said no, everything he told us prior was the truth. He didn't have any sexual relationship with her. He just can't figure how the hair would get there. He just doesn't have any explanation right now. Officers mentioned different ways maybe the hair could have gotten there. He said, no, he just can't think of any reason why that hair would be there. then asked the officers if it was possible this hair could match somebody else's hair. The officers explained it's possible this hair could match somebody else, but be real probably not to because it would be something like a fingerprint where characteristics and different stuff like that, but that the C.B.I. Lab had come back that known hair from his head, that he gave to the police department approxiamtely a year and a half ago did check being the same known hair found on the body of Debbie Tomlinson. Officers mentioned to if there was anything that she could have borrowed or that he could have borrowed from her and then she got it back. He said, no, he just can't think of anything, he just can't realize where this hair got there, he just can't explain it. Just impossible for him to do it and he asked officers if this polygraph that he would take would clear this matter up, concerning the hair, if he took it. And the officers advised him, yes, it would.

This was on December 27, or 26th of December, 1975. stated that her and were up at Country Club taking care of watering the plants and taking care of the house while all the boys were back home for the Holidays. Most of the boys lived out of town, the closest being Hotchkiss where lived. stated that back in October sometime in 1976, he stopped in at the Caravan Inn to have a drink and he met a man with the following description: He had black hair collar length, hair combed back, was neat, waved at the end, approximately 23 years old, 5'7" or 5'8", approximately 160-170 pounds in weight, medium build, nice tan arms, kind of muscular. This subject stated that he did construction work and stated that he did look like he had worked without his shirt on, outside work. Also he said this subject was clean shaven, was dark complected or a real good tan. He had a slender face. He said something about his uncle owning a lot of business or property in the Grand Junction area and said something about he probably belonged to the Mafia or something. Also said that he had never met this subject before and this guy just started talking to him about the homicides that had taken place in Grand Junction. He mentioned the girl being in the bath tub found dead and also the girl that they found that was missing that they found the bike under the 5th Street viaduct bridge. He never mentioned the girl's first name. He just mentioned the girl that was found in her tub at her apartment. He knew and mentioned that him and did dope together at the house and that guy told that the police had talked to him and also had talked to the guy who did this, but was too dumb to know who had done it. If they only knew what was behind it they should have gotten him by now, he couldn't figure out why they didn't find out it was him who had done this to the girl in the bath tub. Also he thought that there was probably a connection between who did the girl in the tub and Denise Oliverson, the missing girl. Also this guy that was talking to said his girl friend went to college or was in college and his girl friend had known Debbie Tomlinson, also Denise Oliverson, but he never did mention his name. He just said his girl friend knew the girl that was found in the tub and also the girl that was missing. Also this guy talked out his mother was divorced, probably at the time, and that he stayed there for some time and then maybe he might have gone to California and then was back here working again. He said that when he went into the Caravan Lounge there this man was drinking a mixed drink and just kind of started talking to him. thought this was kind of funny, or he knew quite a bit about these homicides so he called his boss, and came in and took a look at the subject but said he didn't know who this guy was either, and does know and most of the guys from the Fruita area but didn't know this guy and had never seen him before. Also stated that this guy was dressed in blue levis and had a white t-shirt on. He was a clean looking subject and looked like he was maybe Italian. He said he had been in the Caravan at different times, he and both, and had neither seen this subject since. The date he thought was the first part of October, 1976 because when him and told about this him and went to office and he said that should have the date that he seen this guy at the Caravan, but from that date on he hasn't seen that subject around, maybe the guy left town, but he knew quite a bit about the homicide involving the girl found in the tub, which was Debbie Tomlinson. This guy was telling him that this girl was found in the bath tub and thought the guy said a hammer was used in the killing but he can't recall what was said because it has been approximately a year, but he said that might have this written down in his notes when he talked to him. stated that if he or should see this subject again they will let us know. Also concerning this subject, myself and Officer Silva talked to concerning whether he was in the Cafe Caravan and this checked out to be negative, and also was talked to and this also turned out to be negative.

This interview took place at approximately 5:30 on 8-12-77. This interview was held by Officer Vig at the Sheriff's Department concerning the homicide case of Debby Tomlinson. works at Denning Lumber Company, Grand Junction, Colorado, 242-1736.

stated that she had gone to school with Debbie Tomlinson and had also graduated with her from Fruita Monument and also attended Mesa College the same years. She stated that they were very close during high school. She was very close to Debbie and Debbie was very close to her but when they went to college she kind of (Debbie fell in a group of her own) they kind of lost touch and they weren't as close as they were while in High school. feeling about Debbie was that she was a very mixed up girl, like she wanted to be wanted or loved, like she was being left out and wanted to be need by people. the reason she feels this way was because during high school said she knew for some time that Debbie was adopted by and that her real father wasn't that it was but she said that Debbie never did mention or make any remark to all this time that her father wasn't She thought that maybe knew but didn't want to talk about it because once Debby told her about a dream, that she had dreamt that her dad and mother, brother and sister were walking in a line and she was kind of walking behind them, and got the impression that she felt left out by the rest of the family. said the way that she heard about not being her real father was through her parents and other kids at school but Debbie never did mention to that her father wasn't which thought was funny because they were real good friends. Either that or maybe and her mother didn't tell her that she was adopted. Also recalls that had told her, she can't recall exactly when either while they were in high school or possibly the first year of college, that she would like to move in with when he had this house on Rosevale Road and said she thought she heard later from that Debbie did move in with because wouldn't let Debbie stay with him at his house, stated she is pretty sure she heard this from Also stated she remembers being there at house there on Rosevale Road. This was when she was with This was so could pick up her car that was left there. She recalls that when they were there picking up the car she remembers that and some of his friends were smoking pot at the house while her and were there. But she doesn't know if were drug pushers or has she heard any rumors about that, stated that she knows who is and has talked to him several times when she was with her friends but has never dated or been that close to him. Concerning his temper she remembers him getting upset at the Independent Lumber Company in Fruita, while she was working there and this is when he would come in to pick up some lumber, and the lumber hadn't come in or it was the wrong type and he would get upset but not really mad, but she said he did have a legitimate gripe coming, but she had heard one time and this she thought was through but she told one time that got so mad one time he broke the windshield on his truck but can't recall who he was mad at or what caused him to break the windshield. She stated that she thought Debbie and were more like brother-sister relationship more than or friend to friend. Also stated that Debbie and were real close friends at one time. would go up and stay with Tomlinson's at the ranch and also Debbie would stay with but there was a falling out, something happened between the two, they would hardly speak to each other and this was probably the Junior or senior year at high school, but later they would speak but was not close at all. She doesn't know the reason why.

I-257

Also stated that Debby was very neat, kept herself very clean. In her opinion if she spilt something on the floor or table she would clean it up right then. Also stated that when Debby moved into town and made those trips Debby talked like she was really extremely happy concerning this because she was more on her own, probably away from home. She seemed really happy but maybe a little mixed up. Debby told that her parents were kind of upset because she was living with some guys up on Country Club Park Road that they didn't like, and she kind of talked like she and her parents weren't getting along to good about that.

thought that Debbie's parents treated Debby real nice because they thought maybe they overdone it because she thought she was a little spoiled because she got to make all those trips. They got her a car when she got back and they got her this apartment. She didn't think they mistreated her but maybe spoiled her.

also stated that she didn't even know that Debbie had an apartment by herself there on Belford. She didn't know about that until she was killed. she thought she was still living up at Country Club Park Road. Also stated that the rumors she heard going around was that she was found face down in the bath tub in her apartment, she was strangled, just had her underwear clothes on, and she thought maybe she heard her hands were bound, something was bound, sex just prior to when she was killed. thinks she might have heard this from because at this time she wasn't getting the paper. also stated that Debbie talked like she liked to be around friends when she was going to high school.

He said when he seen this half pound in house this was the house in Fruita and this was after Debbie's death. said that his impression of Debbie was that she was lonely, maybe not too good looking, that she might have had to prove herself that much more to get herself a boyfriend, wanted to be wanted or loved. He thought she was kind of lonely or maybe a little depressed. Also his impression of the relationship between and Debbie was like brother and sister more than or friend to friend. said that he had been

He dosen't have any knowledge of them fighting or not getting along. also stated that the last 2 years that seems easy going, living from day to day. The impression that got of is that he would like to be back on the ranch, he likes to spend money but is not real crazy about making or hogging alot of money. Hel likes to spend the money tho on anybody he might take out. recalls Debbie and another guy that he dosen't know borrowed truck and went to the mountain, he recalls that was a little upset because he didn't get his truck back right away and this was no later than probably October, 1975. He recalls that the guy and Debbie came in a VW and the VW was left at his place and after they worked that day rode back with to his place to pick up the VW and he was kind of upset then that they hadn't gotten the truck back. Also recalls borrowing Debbie's mustang for a trip and this was prior to him loaning his truck to Debbie and this other guy. was gone several days with Debbie's car but he dosen't recall exactly what month or date this was on but he knew it was prior to loaning Debbie his truck and he thought maybe it was early spring or summer of 1975. He dosen't know where went on this trip or if anybody else went with him. He thought maybe used Debbie's car when she made this trip to Europe. was asked what he heard maybe from people he knew or what he read in the paper concerning how Debbie was killed and how she was found. said he recalls he heard this from or the paper that she had ben hit on the head with a hammer, maybe a ballpeen hammer. Also stated that he heard that dinner had been set for 2 people, he either heard this or heard it from that there was evidence of food or dishes that had been fixed for 2 people, hands tied behind her, found in bathtub naked, was raped, and had been strangled. He wouldn't strike out at anybody but would take it out on something else and one time he had broke up with a girl friend and he went out and broke the windshied on his car but he has never seen him strike out at a person, hit a person or slap a person. [redacted] stated that he can't remember if [redacted] was dating anybody regularly at the time Debbie got killed but didn't think he was going out to much with any girls during that time.

[redacted] stated that he thinks when he got paged and when [redacted] talked to about Debbie being killed he thought this was about 9:00PM or 10:00PM on the night of December 27, 1975 when the call came in but knew that it was prior to the police coming out concerning so may young people there at the party. He said whv he knows this he thought [redacted] had already left the party and he was trying to help [redacted] break up the crowd and getting them to leave. [redacted] also stated that since we talked to him on the phone that he stopped by [redacted] house approximately a week ago and said that the police had called him and had opened up the case concerning the case of Debbie Tomlinson. He said that another time she came over to his trailer and he was laying down on the floor and she sat down beside him, then lay down beside him and put her hand on his leg. He said then he did think about going to sleep with her and started kissing her and did lay on top of her but then he got off and told her he didn't want to do that sort of thing. He said Debbie then started pouting and left shortly thereafter.

said he did not know of anyone Debbie dated or how Debbie was with other fellows and he was never forward to her because he knew if he was (such as touch her) it would surely start something between him and her which he did not want. He said that Debbie told him one time she had been ~~overseas~~ overseas and had talked to him about it and showed him the things she brought back. He also said she told him about some guy she liked at one time who had a ~~pilot's~~ pilot's license and had taken her flying. He didn't know anything about Debbie having any secret lovers but said he heard from that Debbie had told a friend who then told that she had been sleeping with

He described as a very talkative ~~guy, KKKKKKK~~ guy, type you have trouble keeping quiet once you get him talking. He also said he never heard any discussion about Debbie's death or how she got killed from anyone. He did say he heard she was found in the bathtub, dead, and nothing else.

never went to Debbie's apartment nor did he know anyone who did. He said he did not want to talk about Debbie's death around because he didn't want to hurt his feelings.

He said that because he was not in Grand Junction when Debbie died, and when he returned several days later, nobody was talking about the death and he didn't want to bring it up.

did not have any suspicions as to who might have done it, because he described her as wierd and thought she might just have picked up some guy.

He said he thought Debbie would take her problems to because he was and very understanding and if one did talk to would listen. He described as the type of person who would only talk when he had something to say and one would have to ask him something if he wanted an answer. He said he would think things out before jumping into it. He said this is how was in construction. He never did see fighting mad but did see him mad once when he went with him over to another subjects house trying to return a power trowel and the guy would not give them their money back. He said the guy finally pulled a gun on the two of them and they backed off and left and was mad. with Nelson Jeanette, CBI Crime Analysis

In talking with Nelson, I learned from him that the hair samples submitted to him for analysis of [redacted] matched some of the hair he had examined on the clothing of Deborah Tomlinson, clothes she was wearing the day she was found. Nelson continued stating that of the four hairs submitted, three of them were found on Deborah's clothing. He stated that two hairs were found in the knot of the scarf and that one hair was found on the shirt. Although the hairs were not like a fingerprint, there was a high probability that [redacted] hair and those found on the victim were the same. He also stated that other hairs that were submitted to him which had been found in other parts of Deborah Tomlinson's apartment did not match [redacted] He also said it is not likely that the hairs found on the scarf and on the shirt could have gotten there from a previous encounter with Deborah Tomlinson.

Nelson then advised he would be sending this information to the lab man, Larry Hall, and the interview was terminated.

NOTE: On 07/26/77, approximately 1300 hours, I received from Larry Hall a laboratory report from Nelson Jeanette and one photo which showed the scarf and hair samples ~~XXXXX~~ found on the scarf. The lab report was given to secretary, Marlen Davis, to be placed with the original files and the photograph was placed with the other photographs taken from the crime scene.

POLYGRAPH - Subject:

DATE: 07/30/77 TIME: 1630 hours

EXAMINER: Rick Claussen, Polygraph examiner, Mesa County Sheriff's Office

The following is the information received from _____ during the pre-interview and pre-test of the polygraph. _____ advised that as far as Deborah Tomlinson was concerned, he did not see her a whole lot. He said he saw her approximately five to six times when she was living on Country Club Road and her apartment when she would stop at his apartment on Rosevale. He also said he never knew about anything bothering Debbie. He said she never gave any indication to him she had been threatened by someone prior to her death. He also said he last saw her on Christmas Day and was pretty sure of this. He said that while there was a family gathering on Christmas Day at the home of _____ and believed he talked to Debbie about going to his party on the evening of the 27th. He said they were on good terms prior to her death. He said the last time he was at Debbie's apartment was sometime in the fall of 1975 and that at that time the reason was to return her vehicle and pick up his truck after Debbie borrowed it to go get some wood. He said at that time he had gone over the school schedule with her, meaning the classes she was taking. He said he was not particularly fond of the classes she was taking because he thought they were too easy. He also said he was somewhat concerned with her activities and didn't condone her living in town and the life style she had. He also said that his relationship with Debbie was more that of a domestic advisor to her.

_____ said he did not know whom she talked to about other things and did not know that much about her friends. He said he recalled Debbie had a crush on a subject by the name of _____ when she was in high school.

Claussen then asked _____ what his knowledge was of Debbie's death. He said he believed most of the things he heard was from _____ and said he did not push _____ in asking about what the police had told him, what he had known because he felt _____ would tell him if he wanted to. He then said he assumed Debbie was hit on the head with a hammer when she walked in the door and was hit in the temple. He also said he heard she was sexually attacked after she had died and the perpetrator had penil intercourse with her. Claussen then asked how he heard about her being struck in the temple. He said he assumed it or he might have seen it at the funeral when she was in the casket. He can't recall. He also assumed or heard that there strangulation marks on Debbie's neck and that this possibly could have happened on the bed. He also mentioned he heard about some keys missing, a chain of keys missing. Claussen then asked

if he knew anything else on how she was strangled. advised he assumed, or maybe she was strangled with a nylon stocking or rope or whatever and mentioned there was probably blood in the bathtub and that Debbie had most of her clothes off. also said that he had heard her hands had been bound and assumed they had been bound in back of her. He did not say how they were bound. Claussen then asked him about his thoughts as to how or why Debbie was in the bathtub. then said maybe he was cleaning up and then assumed the murderer wanted to come back and move the body. He also said that was why he assumed the keys were missing, so the subject would be able to get back in the door to get the body. also mentioned the fact the window was open and the screen was off, again it being an assumption or maybe he got the idea from

At this time told Claussen that he remembered that on the day she was killed, some girl called about 3:30 and wanted her telephone number. The girl had called had never mentioned this to Olivas and Vig in the previous interviews.

Claussen asked what reaction was to Debbie's death and he said he postponed it for awhile and tried to keep things going around and family helping with the funeral arrangements etc. He also said that after talking to Olivas and Vig he recalled that he returned home to Rosevale on the evening of the 27th shortly after midnight and not at five in the morning as he had stated previously. At 1740 hours, the pre-interview was completed and the testing on the polygraph began.

The examination consisted of a specific issue type examination, exploratory type examination, and peak attention examination.

At approximately 1935 hours, the examinations were completed. It should be noted that prior to each different type of examination, the questions and answers were reviewed with

Also, prior to examining Officer Rick Claussen obtained a waiver consenting to the polygraph on and also a waiver on his advisement of the Miranda warning.

On completion of the examinations, Investigator Rick Claussen brought up observations he had made in reviewing the charts. Investigator Claussen advised there was response to the question of whether he had been at Debbie's on the day in question.

advised he was not in her apartment on the day in question, but then again stated maybe he had stopped over and talked to Debbie about the party on that day but did not believe he did

Claussen then asked if he had ever borrowed anything from Debbie or if she had borrowed something. advised Debbie might have borrowed some tools from him but he did not know what tools. He also said he had given her some work shirts and some record albums on previous occasions and that he also might have given her some jewelry, possibly earrings but could not recall. He also said she probably also took something from him and he did not know about it. He said he never worked on her car.</p> <p>said he some of Debbie's things now, record albums and some glasses. tub on the day of the homicide and peak attention tests consisted of questions as to the type of material Deborah Tomlinson was tied with and color of the material. Another peak attention test concerning what color panties Deborah Tomlinson was wearing on the day of the homicide.

Prior to each different type test, the questions and answers were reviewed with

It was noted during the reviewing portion of the test concerning the color of the ~~handkerchief~~ ^{handkerchief} used to tie Deborah Tomlinson that

advised Claussen he knew Debbie had some blue and some red ones. After the examination was completed on the color of the handkerchief

~~stated to Claussen~~ ^{stated to Claussen} that he had observed a reaction on one of the colors on the charts and that he had counted back five. Claussen asked how he had counted back five and

advised he had counted back five from the bottom up and it was noted that the fifth one from the bottom up of the examination was the color red which is the color of the handkerchief that was used to bind Deborah Tomlinson. It was also noted that as Claussen was reviewing the colors of the panties Debbie wore on the day in question, prior to the commencing of the examination,

said he was flashing on the color blue. After the examination was completed by Claussen, approximately 1750 hours, he questioned

regarding the results and what had told him before. Particularly he

asked: how he knew the color of the panties Debbie might have had on the day in question.

said he did not know but said Debbie looked good in blue. He was asked what he meant and

said he had seen Debbie's pants laying around at times but did not say when. Claussen advised

he had not done well on the charts, particularly the charts regarding the questions if he inflicted the injuries causing the death of Deborah Tomlinson.

said he had no idea why he did bad but that he did not kill Debbie.

He was then asked by Claussen if he could explain how the hair had got on Debbie's body.

The one the CBI laboratory said matched his.

said he did not know and had no explanation for that.

was then asked, what if the blood results came back matching his also.

said that if the blood came back and matched his, along with the hair, he guessed he killed her but he couldn't remember. He also said to Claussen that "if I was

you, I would have to think I was guilty". Claussen then advised

that it was not just one hair on the body but a cluster of hairs in the knot.

said it was hard to figure how it happened other than if he was there, unless it was in the knot before.

Claussen then asked if Debbie was a nice girl and

replied she was adequate.

It was also noted during the examination regarding the type of item used to tie Debbie's

hands, Claussen advised

he must have twisted his finger on one of the questions

and

said he had twisted his finger on the item handkerchief. As the questioning continued,

repeated he had no idea how the hair got on Debbie's body nor did he

stated that Debbie Tomlinson was real nice young lady, as far as he was concerned. Some days she would be really happy and really good spirits, other days she would be kind of moody, maybe back talk and in an onery mood. She had her moody days sometimes, but he didn't have any problem with Debbie Tomlinson. She would come over there just as if it were her home, come in the house, go through the house, sit down and watch T.V. and talk with them for a few minutes and then leave. Just like her second home , stated.

He stated when she would come over, this would be during the time was staying there, maybe back in 1974 when they moved from Vernal, Utah, they would watch T.V. together. The relationship between Debbie and he thought was more like brother and sister rather than , because they were raised up together and not too much difference in age.

stated was living with him there on 8 Road, at 1620 - 8 Road, when they moved from Vernal, Utah down to Mack. Around the latter part of the summer of 1974, moved away from home. He and someone else bought a home there on Rosevale Road and were repairing it. Approximately the last time he actually lived at home at he and his wife's place was then.

I291

Interview:

Asked if [redacted] had any amount of temper, he said, not as far as he knows. He had never really seen him mad or use any cuss words. He has heard get mad at times, but never had seen [redacted] mad at anytime, while he was present.

He did state that Debbie would come over sometimes and borrow [redacted] truck and she would leave her car there. As far as he knows, where or not [redacted] used Debbie's car, he has no knowledge of that. He recalls Debbie's car being left there when he borrowed [redacted] truck. A lot of times she would come in and maybe borrow jacket. Later when [redacted] would come home, he might be looking for his jacket and Debbie would have it. Any problems between the two, he thought they got along just like a brother and sister would. He had this feeling that maybe, not sure, that Debbie had [redacted] help clean her apartment or help her move into the apartment.

He stated that approximately four years ago when the will was left by [redacted] one third was left to [redacted] and two thirds was left to [redacted] Nothing was left to [redacted] felt out of place, like he wasn't part of the family, because [redacted] I didn't leave him anything and [redacted] told him at that time it wasn't that [redacted] left him out of the will, but it was a mistake on the part of their Attorney [redacted] The attorney forgot to put [redacted] name in there. told [redacted] that he would get his share later on from her share,

[redacted] stated he didn't think [redacted] held any grudge against [redacted] or [redacted] concerning this. One Christmas get-together they had the family, there was some money (they were going to split some shares or something) and [redacted] had mentioned to [redacted] that he could pick his part of the money that was left. [redacted] said, no, I'll just go ahead and let [redacted] have it because he has a family and some kids and I am by myself. I just have myself to take care of and I can get even with him later, or some remark to that effect.

[redacted] stated that after [redacted] had discussed with them at [redacted] place in Mack, that the Sheriff's Department had talked with him and that some of his hair matched with hair found there at the apartment, he said they are just doing their job trying to find out. He was kind of shook up over this, but he remarked they were just trying to find out what had happened that night,

Interview:

He stated he didn't have anything to do with harming Debbie and that he appreciated that we were working on the case.

Also stated, he was asked by the officers, if anything was discussed among the table or conversation with the family concerning anything missing from the apartment. He said the only thing he can remember either discussing or reading in the paper, or heard from or someone, was some keys of Debbie's were missing, car keys. This is the only knowledge or discussion he heard of anything missing from her apartment.

stated that if he does hear anything later on or if there is any information that he can help us with, he will get in touch with us.

Approximately 7:30AM, June 17, 1983, Investigator Vig contacted

Colorado, phone number

advised Investigator Vig that on May 29, 1983, a Sunday,
day before Memorial Day, at approximately 10:30AM, she went to
grave at the Elmwood Cemetery, located at 1175 17 $\frac{1}{2}$ Road,
Fruita, Colorado. She got there at approximately 10:30AM and there
were alot of people already there, at the cemetery, fixing up the graves
and bringing flowers.

When she got to Debbies grave she noticed that by the headstone was
twelve freshly cut roses. They were long stemmed and dark red, and
when she counted them there were one dozen. She stated that they were
real pretty roses, some of them were just budded out, there were one
or two that were open. These roses had been placed there, she thinks
or is sure, that it was prior that morning, before she got there. Also
some other flowers, like daisies, some other plants were on Debbies grave,
but it also stated who they were from, relatives and friends, but the roses,
she checked them to see where they had come from, and there was no name or

card on the roses or even a flower shop tag. She checked the vase a couple of days later, on a Wednesday, June 1, 1983. She thought that maybe the vase may have said where they came from, but when she looked she noticed that they were stuck in the vase that when they had the headstone made for Deborah, they had a vase made that was attached to the headstone.

Also these roses had water in the vase. Checking with the relatives or friends, she has not heard anybody mention that they brought roses to the gravesite of Deborah. She does not know who put the roses in the vase.

She stated later that she and were at City Market getting groceries, she noticed that City Market had a special during Memorial weekend, they had fresh cut flowers and roses that were fairly inexpensive, but she does not know if the roses came from the City Market flower shop. She has not heard where these roses may have come from.

She stated that so far from the relatives, no one knows where they came from. She talked to several people that were at the cemetery on the 29th of May, but no one mentioned at that time that they had brought some roses to Deborah's grave.

Investigator Vig advised that this information will be turned over to Tom Freeman, with the Grand Junction Police Department detectives, that is handling this case, and he will probably be getting in contact with them.

SYNOPSIS

On 4/2/2019 I, Sgt. Chris Niehtern, received a phone call from Corporal Brandon Ludwig of the Grand Junction CO Police Department. Corporal Ludwig is working a cold case homicide that occurred in their jurisdiction in 1975.

Ludwig stated that they received information on a possible suspect but that person is deceased. The suspect's daughter lives in Fargo and has agreed to voluntarily submit to a buccal swab for DNA. Ludwig requested that we obtain this buccal swab from [REDACTED] and send it to the Grand Junction Police Department.

[REDACTED] is scheduled to come to the Fargo Police Department on 4/5/2019 at 1600 hours to provide the DNA sample. Once the sample is received it will be placed into evidence so the chain of custody can begin in sending it to Ludwig.

Corporal Ludwig also sent me a letter officially requesting this assistance. That letter will be scanned into laserfiche.

On 4/5/19 at approximately 4:00 pm, I met _____ in the lobby of The Fargo Police Department at 222 4 Street North Fargo ND.

_____ voluntarily came to provide a buccal swab to help in a report at the Grand Junction Police Department in Grand Junction Colorado (555 UTE Ave Grand Junction CO 81501).

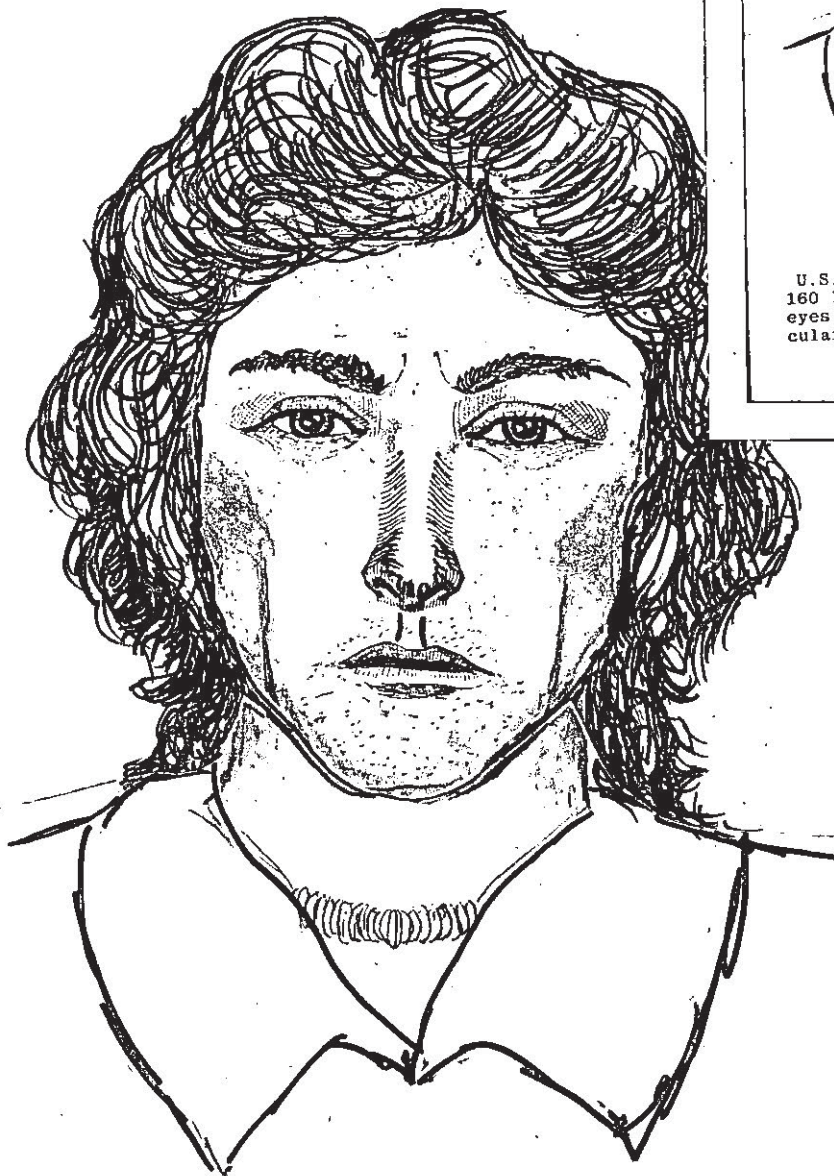

Our conversation was recorded and will be entered into laser fiche if Grand Junction Police Department needs later on in this investigation.

_____ provided me her ND Driver's License (the photo matched to whom she was). I verified name/date of birth/address and phone # with her.

_____ voiced that she came in voluntarily to provide the buccal swab.

I started the process of the buccal swab collection with date/time of 4/5/19 at 4:04 pm. I asked if she had anything in her mouth and she stated she had gum in her mouth approximately 25-30 minutes prior. I put the gloves on that were provided inside the Buccal Swab collection/transport kit and started the process of collecting her saliva and finger prints on her left and right index fingers.

The buccal swab was logged into evidence, an email was sent to the evidence manager/Bridgitte Geyer and Sergeant Christopher Nichtern indicating that the buccal swab was collected and placed into evidence.

PERSON INTERVIEWED: Detective John East, San Marcos, Texas Telephone

O: I understand that you have had a homicide comparable to ours.

A: I was just checking around. Our D.A. was up in your neck of the woods sometime in January or December, and he looked at the newspaper and was commenting about this coed who was murdered up there and found in a bathtub. We had a homicide here in November similar to that and I just wanted to check with you people in an off-the-wall chance to see if we could put something together.

O: Right. What's the time and date of your homicide?

A: November 24th, occurred sometime around 1 - between 1 and 1:30 in the afternoon.

O: Our's occurred on Saturday, December 27 between the hours of 3:30 and 5 o'clock. What's the description of your victim?

A: White female, about 21 years old. She was about 5'4" - 5'5", weight about 120 lbs., firm build, long blond hair.

Q: What type of residence did she live in? Was it an apartment or residence?

A: Apartment. Upstairs apartment.

Q: Upstairs. How far away from the school was it?

A: Approximately one (1) mile from the school.

Q: How did you determine the point of entry and exit?

A: Well, there's only one way into the apartment and that's through the front door.

Q: There's no back entry?

A: No back entry.

Q: Anything taken from the residence that you can determine?

A: That we can determine no. Nothing at all.

Q: Did the suspect make it appear as if it were a burglary?

A: No. Not really. When we came in, this girl.....it appears there was a slight struggle in the living room and the adjoining room and then the bedroom. It may have been two (2) people; I'm not real sure on that.

Q: We haven't overlooked on ourselves either.

A: Nothing was disturbed in there as far as going through drawers, things like that. It appeared that she had been raped, but pathology report came back negative results.

Q: But, had entry been made in the vaginal area?

A: Ah, they couldn't tell.

Q: Any bruises or anything like that?

A: I have the photographs that I could probably send you people. Yeh, I think there was something, but our pathologist down here, partner, is new at the game and he left a lot of stuff out.

Interview with Detective John East, San Marcos, Texas

I was kinda disappointed in his report.

Q: Listen. Your victim; how was she found?

A: She was found nude from the waist down. She had on a pair of boots. She had a shirt on a blouse, and she was found over the edge of the tub, face up in the water.

Q: But, she was nude from the waist down?

A: Right. She had a scarf around her neck....or two (2) scarfs around her neck. One that she had worn that morning - whenever she got dressed - and the other one was used by the defendant.

Q: The cause of death - did your pathologist determine.....

A: Strangulation.

Q: Was it around the larynx area? Do you know?

A: There were bruises on both sides of the neck. And a slight amount of water in the lungs. He just wasn't real sure.

Q: What was ~~the~~ used to strangle her? Neckerchief?

A: Scarf, taken from a rack in the closet...there's a walk-in closet in the bedroom.

Q: Do you remember how the knot was tied?

A: I'm not real sure how the knot was tied. I've still got it.

Q: I just wonder if it would be the common type.

A: I believe it was. It appeared to me that this thing may have....the scarf may not have been

used to strangle this girl, but more of a gag.

Q: A gag?

A: Right. Because the way it was tied around her neck, her hair was past her shoulders and this knot had a lot of hair in it, so it may have been tied around her mouth, *to begin with*

Q: How about her hands? Any indication that she tied there?

A: No.

Q: How about pantyhose? Did you find any pantyhose laying around the apartment?

A: No. None at all.

Q: Was the victim struck on any part of her body?

A: Yes.

Q: Where?

A: All over. She had bruises all over.

Q: Any about the head?

A: Yeh. Mouth. Side of her head. And bruises appeared on her legs. She was pretty well whipped.

Q: Was there fracture of the skull?

A: No. Not that we can determine.

Q: Would you determine that it was a blunt-type instrument or hands.

A: Probably hands, I would think. Hands and feet most likely.

Q: At this particular time, your pathologist couldn't tell you whether she was sexually assaulted or not, other than the fact of some bruises in the vaginal area?

A: Other than that, right, because she had engaged in sexual intercourse the night before, the man she was living with. There was just no way that he could tell.

Interview with Detective John East of San Marcos, Texas continued.....

Q: Any sign of a struggle on the bed or anything?

A: Right. There was. I believe the struggle probably occurred in the living area of the apartment, and she was carried to the back because the bed was messed up. Evidently her clothes ~~her~~ were off of her at that time because of the feces on the bed.

Q: Oh, you did get some evidence on the bed?

A: DCPS.....Texas Rangers are helping us work on this thing down here. They did the crime scene.... most of the crime scene work.

Q: Did he leave any kind of physical evidence behind...the suspect?

A: Very little. No. Other than fibers and palm prints that were in the bathroom area.

Q: Were you able to get any pubic or head hairs on that bed or off of her?

A: I believe some blond hairs.

Q: To your knowledge, had your victim ever been to Colorado?

A: To my knowledge, no. I couldn't say, but this thing appeared to me... and this is right off the top of my head.....it appears to me that this man she was living with is quite a dealer down here in Texas, and there was a truck that came through here from Nebraska - a bobtail truck that was rented in Nebraska - that carried a load of marijuana down here, and right after they hid the load everybody left on a Friday and this occurred on a Monday, and it could be that somebody maybe thought he could have been holding quite a bit of money because of the way this girl was tortured

in the bathroom. She had big blisters on her face and on her back and her left arm, and this was likely.....I mean, we couldn't tell from the pathology report.....the damn fool didn't even put it in there about these blisters, but it looked to me like he held her under the hot water.

Q: Could the pathologist tell whether she was dead prior to going into the tub, or did she die in the bathtub....Does he know?

A: It was pretty well established that she did die right there....in the bathtub.

Q: She was dead before she got there?

A: No. It was about four (4) hours later that we found her.

Q: Oh. You found her around 4 o'clock in the afternoon then. What is the victim's name?

A: Sheryle Norris.

Q: Her date of birth?

A: I would have to dig out my case.

Q: OK. But, she is what 21 years.

A: She is 21 years old. She was originally from Florida, ^{Ft. Walton} Folsom Beach, Florida. Her father is a sergeant in the Air Force ^{Algin} Algin Air Force Base, I believe.

Q: Did you say she was a college student?

A: Yeh. She was a college student, and she was working for the Texas Crime Prevention Institute here in San Marcos, Texas. A secretary.

Q: Just a little background on her. Can you give me a little bit of that?

A: She was a Air Force kid and travelled around quite a bit. But, prior to her moving to San Marcos, She had lived in Ft. Walton, Florida and had been busted once down there for possession of marijuana Here's a kicker, too, Sergeant. Two of her former roommates down there and one of her roommate's

Q: Were you there at the time she was discovered?

A: Yes. Right after, I guess.

A: How's that?

prints, but we do have some. You say that the Texas Rangers conducted your crime scene investigation?

A: Right. Well, our DPS Crime, you know, our crime lab came down here.

Q: Are they pretty thorough? Do you know?

A: Yeh. Really. They're pretty good. They did a pretty good work up out there. They got quite a few palm prints that we haven't been able to identify yet.

Q: They do not belong to your victim?

A: No. Did you all get any prints out of this thing?

Q: A few partials. Tell me a little more on the mother.

A: This roommate's mother? Ok. This is the one I know the most about, I guess. She was found.... all these murders occurred within a year's time, within the last year....and this mother, she was a divorcee, lived alone, I believe down at Walton. She had been beaten, they found her nude, stretched out in the living and strangled. The investigator in Ft. Walton, Florida is a fellow named George French. He's with the ^{Okaloosa} County Sheriff's Office down there.

~~He pretty much came up with what we had~~

Q: Any physical evidence from that crime scene?

A: George is supposed to be sending me some prints on some suspects, but I have'nt heard from him.

Q: How far is that from your area?

A: I guess maybe about 1200 miles.

Q: Jeez.

A: If it is the same dude, he's doin' some travellin'.

blocks from the college. Our perpetrator gained entry to the residence....there didn't appear to be any type of forced entry....what he had done was knock her up along side the head with a hammer sexually assaulted her on the bed. However, we have entry having been made to the vaginal area but no sperm. She was choked. Her larynx was crushed. She was then taken from the bed, drug across the room into the bathroom. She was nude from the waist down, except for some ankle socks. She was laid face down. The shower turned on, or the water turned on in the tub. Our individual made it look like a possible burglary.

A: That's pretty much what it is down here. It looked like it might have been a burglary and a rape maybe. But, there's no forced entry like she let him in the house. Because she was in the habit of going home everyday at noon.

Q: Another thing that was similar is the fact that the stereo was going at the time.

A: Your's too.

Q: And the drapes were pulled.

Q: All the curtains were pulled.

A: A lot of similarities.

Q: He made it look like exit was made through the bedroom window....pushing open the sliding glass window and pushing outward the screen.

A: There windows in the front of this apartment. No windows in the back. It's sort of a balcony

right there at the front door, so exit through the front door was just as easy I guess as
going through the window.

Q: Did anybody see or hear anything during this time?

A: Only the stereo being turned up around 1 or 1:30, somewhere, I guess. They came home for lunch downstairs...the party who lives in the apartment below. He reported that he had heard the stereo being turned up and that was around 1.

Q: See, our victim was strangled. She was gagged and bound around the face with one of her own scarves. Her hands were tied behind her with one of her own scarves. And then, also, two pairs of pantyhose that were probably used around her legs, but untied her prior to putting her in the bathroom. There's just too many similarities here....

A: = There damn sure is.

Q: What was this girl majoring in college?

A: I'm not sure.

Q: Our's was physical education. She was fairly well built.

A: Our's was a fairly athletic type chick, too.

Q: Something else we might give you so you can start checking, we are checking from this end with our college. We have a college by the name of Mesa College. And we are going to check any transcripts But, it sounds like we may be working backwards. He may have come out of Texas, instead of from here to Texas.

A: He may have come here from Florida, then to Colorado.

Q: We'll start checking from here, see if we have any students out of Texas or Florida. What's the University in Florida where this other one took place.? Do you know?

A: OK. Fine. Give me a week or so.....I'm working on a suspect out of San Antonio right now, but there may not be too much to this.

Q: Do you have access to a polygraph down there?

A: You bet.

Q: How many suspects did you have on this homicide?

A: OK. When we started out we thought we had a real good one. Indian jewelry salesman out of New Mexico. A guy by the name of

He came back and we ran him on the polygraph and cleared himself. We ran up a dead end. I've got a bunch of rumors from Florida that some people down there were involved, but I haven't heard from George French.

Q: Was your victim in the drug scene at all?

A: Quite a bit.

Q: Mainly grass, or what?

A: I believe so. That, and cocaine, I believe. This fellow she was living with he had been busted before in Atlanta. DEA is giving me a work up on him and his associates. I'm going to run him Tuesday on the polygraph. I've kind of broke down on the progress here lately

Q: At the scene, John, was there any indication that this guy tried to clean anything up? Put anything back.

A: No.

Q: Was it messy....the scene itself?

A: Not really. The bed was. The bed was messed up and the bathroom was messed up. He had left the tap on in the bath and the tub was full of water all the way to the top and some on the floor. The dining area of the apartment, there was a rug that was messed up and one that was messed up in the living room where entry into the apartment was made. So, there was evidently a struggle from there to the bedroom to the bathroom.

Q: That's all I have.

Q: OK, John, like a say I'll probably get back with you in the next or two, and there's a good possibility we'll be coming out to visit you.

Preliminary interview:

was asked the following questions during the preliminary interview:

A: For information I might have concerning the Tomlinson homicide. The San Marcos police contacted me about a month ago about a murder that had the same M.O. They questioned me about both murders. I visited the scene of the Tomlinson crime the night they found the body. I gave my name to an officer and they followed that up and contacted acquaintances of mine.

A: No, I have no recollection of her. I don't recognize the name or the picture as being familiar to me.

A: I have been in the Pizza Hut and Shakey's and the one across from Mesa College (Spanky's...was Pretzel Factory).

A: Don't remember ever meeting her.

A: He worked with me on the railroad. I went from the scene of the Tomlinson homicide and visited at his trailer and told him there was a girl dead at the apartments. The girl was found in her apartment and I believe she was originally found by the manager's wife. It was reported to her because a screen was off the apartment for a long period.

A: I was there to visit a friend of mine who lived there.

I arrived there after dinner, approximately seven or eight. I ate at home that evening I believe. I don't recall if I meant to visit that evening or if I was attracted by the police cars. I parked the car and walked to the parking lot; was in the parking lot. He told me Tomlinson had been found in her apartment dead and foulplay was suspected. They mentioned she was found in or around the bathtub.

Q: Did you talk with the San Marcos authorities down there?

A: Yes.

Q: What did they ask?

A: They asked about my car. Where it was on a particular night in November and asked if I knew Debi Tomlinson and other general questions.

Q: Where were you on the 27th of November?

A: November or December?

Q: November.

A: I was in San Antonio.

Q: Do you know anything about the San Marcos murder?

A: Just what I was told by Commander East.

Q: You drive here at Christmas?

A: I flew home at Christmas. Drove my mom's car or dad's truck while here.

Q: Does your brother have a car? Does he ever let you borrow it?

A: Yes he has a car. Used it once to go to Aspen skiing.

Q: You don't know Debi Tomlinson?

A: No.

Q: You can't say you know her from the picture?

A: No. I can't say for sure if I have ever talked with her. I can't place the face or the name.

Q: Did you go out when you were here during break?

A: A friend and I went to a New Years Eve party at
I went with a girl. Can't remember her
name?

Q: Was it

A: Yeah..can't remember the first name though.

Q: Who were some of the people at the party?

A: Let's see, there was and
myself. We went to place. There were
some sisters, or half-sisters there or something.

Q: At the party, did you talk about the Tomlinson homicide?

A: I can't remember for sure. I would venture to say
I probably did...since I was there and everything.
I can't recall for sure.

Q: Do you know how Debi Tomlinson was killed?

A: I think she was found in the bathroom or the bathtub.
Other than that, I want to say strangulation. Sex was involved.

Q: What do you know about the case in San Marcos.

A: Only what I was told. I was told she was found in
the bathtub and was badly scalded. I did not read the
account of that and did not know it took place. I was
studying for exams.

Q: You personally don't know Debi. You heard she was
strangled but you don't know for sure?

A: No. I do know sex was involved in both murders.
